ROLL CALL.

Present: Commissioner Doennig, Commissioner Layne, Commissioner Colony, Commissioner Pauly, Commissioner Ridge, Commissioner Gunther, Commissioner Lebeck and Commissioner Knuckles.

Absent: Commissioner Scott.

Staff in attendance: Justin Crighton, Planning and Development Assistant Director, Bob Hosmer, Planning Manager, Michael Sparlin and Andrew Menke, Senior Planners, and Laura Vales, Assistant City Attorney.

APPROVAL OF MINUTES.

The minutes of February 13, 2025 were approved.

COMMUNICATIONS.

City Council summary for February 2025 and statement regarding Short-Term Rental appeals.

CONSENT ITEMS.

Relinquishment of Easement 951
417 West Lynn Street
Applicant: Springfield Public Schools
Relinquishment of Easement 953
417 West Lynn Street
Applicant: Springfield Public Schools

Relinquishment of Easement 952
400 West Division Street
Applicant: Springfield Public Schools
Relinquishment of Easement 954
417 West Lynn Street
Applicant: Springfield Public Schools

COMMISSION ACTION:

Planning and Zoning Commissioner Knuckles moved to approve Consent Items (Relinquishment of Easement 951, Relinquishment of Easement 952, Relinquishment of Easement 953, and Relinquishment of Easement 954); Commissioner Pauly seconded the motion. It **Passed** with the following vote: Ayes: Commissioner Doennig, Commissioner Ridge, Commissioner Colony, Commissioner Hunton, Commissioner Pauly, Commissioner Gunther, Commissioner Lebeck, and Commissioner Knuckles. Nays: None. Absent: Commissioner Scott. Abstain: None.

UNFINISHED BUSINESS.

PUBLIC HEARINGS.

Z-2-2025

6116 South Farm Road 175

Applicant: TAG Property Development, LLC

Mr. Michael Sparlin stated that this is a request to rezone approximately 25.2 acres from County R-1, Suburban Residence to R-SF, Single-Family Residential District.

Mr. Doennig opened the public hearing.

Mr. Lyndel Link 1391 S. Shirley, Republic representing the developer and here to answer any questions.

Mr. Doennig asked about accessing the cemetery in the subdivision.

Mr. Link stated that the gates will be open throughout the day from 7:00am to 6:00pm or whatever the requirements will be.

Mr. Hosmer noted that staff has talked about the possibility of having a homeowner's association when it goes to the final plat.

Mr. Pauly asked about the homeowners Association (HOA), and will the HOA support any accessory dwellings unit that may be included later.

Mr. Link stated that he is not sure, and this has not been discussed, however the owners are available to answer that question.

Mr. Gary Herman noted that they have not discussed anything like that.

Mr. Doennig closed the public hearing.

Mr. Pauly noted that the city is looking into ADU's and finds it concerning and would like this to be looked into the future and believes it is something that is not being used to it best of our abilities and do have concern about the size of the lots and the inability for the HOA to include an ADU provision and will not be able to vote for this.

COMMISSION ACTION:

Planning and Zoning Commissioner Knuckles moved to approve Z-2-2025; Commissioner Gunther seconded the motion. It **Passed** with the following vote: Ayes: Commissioner Doennig, Commissioner Ridge, Commissioner Colony, Commissioner Hunton, Commissioner Gunther, Commissioner Lebeck, and Commissioner Knuckles. Nays: Commissioner Pauly. Absent: Commissioner Scott. Abstain: None.

Z-3-2025 COD 268

1320, 1324 & 1328 East Division Street

Applicant: Rosales Holdings, LLC

Mr. Michael Sparlin stated that this is a request to rezone approximately 0.45 acres from GR, General Retail District to R-TH, Residential Townhouse District and establishing Conditional Overlay District No. 268.

Mr. Doennig opened the public hearing.

Mr. Cameron Hole, 3213 S West Bypass here to answer any questions.

Mr. Doennig closed the public hearing.

COMMISSION ACTION:

Planning and Zoning Commissioner Knuckles moved to approve Z-3-2025 COD 268; Commissioner Colony seconded the motion. It **Passed** with the following vote: Ayes: Commissioner Doennig, Commissioner Ridge, Commissioner Colony, Commissioner Hunton, Commissioner Gunther, Commissioner Pauly, Commissioner Lebeck, and Commissioner Knuckles. Nays: None. Absent: Commissioner Scott. Abstain: None.

Preliminary Plat of Hidden Gem Estates
6116 South Farm Road 175

Applicant: TAG Property Development, LLC

Mr. Andrew Menke stated that this is a request to approve a preliminary plat for an 18-lot residential subdivision.

Mr. Doennig opened the public hearing.

Mr. Lyndel Link 1391 S. Shirley, Republic representing the developer on this project and here to answer any questions.

Mr. Doennig closed the public hearing.

COMMISSION ACTION:

Planning and Zoning Commissioner Knuckles moved to approve Preliminary Plat of Hidden Gem Estates; Commissioner Ridge seconded the motion. It **Passed** with the following vote: Ayes: Commissioner Doennig, Commissioner Ridge, Commissioner Colony, Commissioner Hunton, Commissioner Gunther, Commissioner Pauly, Commissioner Lebeck, and Commissioner Knuckles. Nays: None. Absent: Commissioner Scott. Abstain: None.

OTHER BUSINESS.

Initiate Changes to the Rules of Procedure for Planning and Zoning Commission Order of Business Agenda
Citywide

Applicant: City of Springfield

Mr. Bob Hosmer stated that this is a proposal to modify the Rules of Procedure from the pre-agenda with Randall Doennig and Dan Scott. This will have an administrative action for the preliminary plat that it must meet the minimum requirements set forth, i.e., subdivision statutes, subdivision regulations, and zoning district.

Mr. Doennig opened the public hearing.

No speakers.

Mr. Doennig closed the public hearing.

COMMISSION ACTION:

Planning and Zoning Commissioner Knuckles moved to approve Initiate Changes to the Rules of Procedure for Planning and Zoning Commission Order of Business Agenda; Commissioner Pauly seconded the motion. It

Passed with the following vote: Ayes: Commissioner Doennig, Commissioner Ridge, Commissioner Colony, Commissioner Hunton, Commissioner Gunther, Commissioner Pauly, Commissioner Lebeck, and Commissioner Knuckles. Nays: None. Absent: Commissioner Scott. Abstain: None.

Mr. Hosmer noted that there is a Short-Term Rental Type 2 appeal coming up for the May 2025 Planning and Zoning Commission meeting and gave short overview of the process and section 36-472(2)8 of the zoning ordinance.

DEVELOPMENT REVIEW STAFF REPORT

PROJECT INFORMATION	
Case Number:	Conditional Use Permit No. 481
Location:	1525 N. Campbell Avenue
Total Acres:	0.94 acre
Applicant:	The General Council of the Assemblies of God
Existing Land Use:	Warehousing and storage
Neighborhood Meeting:	March 20, 2025
Planning and Zoning Commission:	April 10, 2025
City Council:	May 5, 2025
Public Notification:	Mail, posted property, and legal in Daily Events
Staff:	Daniel Neal, Senior Planner, (417) 864-1036
Staff recommendation:	Staff recommends approval
Proposed motion:	I move to adopt the staff's responses in Attachment 2 to the staff report as the findings of fact and recommend approval of CUP 481 subject to the conditions listed in Attachment 1 to the staff report. (All commission motions are made in the affirmative.)
Required Vote:	A majority of those present (5 members are a quorum).

PROJECT SUMMARY:

Request to permit warehousing and storage facilities within a CC, Center City District, generally located at 1525 North Campbell Avenue.

DEVELOPMENT REVIEW STAFF REPORT

GOOGLE AERIAL OF LANDMARKS, BUSINESSES, AND ATTRACTIONS:

GOOGLE MAPS STREET VIEW:

DEVELOPMENT REVIEW STAFF REPORT

PROPERTY HISTORY:

The subject property has been zoned CC, Center City District, since the 1995 citywide rezoning.

PLANNING AND ZONING COMMISSION AUTHORITY:

Sec. 36-363. – Conditional Use Permit

- (1) *Purpose.* The conditional use permit procedure is designed to provide the planning and zoning commission and the city council with an opportunity for discretionary review of requests to establish or construct uses or structures which may be necessary or desirable in a zoning district, but which may also have the potential for a deleterious impact upon the health, safety, and welfare of the public. The purpose of the review is to determine whether the proposed location of the use or structure is appropriate and whether it will be designed and located to avoid, minimize, or mitigate any potentially adverse effects upon the community or other properties in its vicinity. The discretionary conditional use permit procedure is designed to enable the planning and zoning commission and the city council to impose conditions upon such uses and structures that are designed to avoid, minimize or mitigate potentially adverse effects upon the community or other properties in the vicinity of the proposed use or structure, and to deny requests for a conditional use permit when it is apparent that a proposed use or structure will or may cause harm to the community or injury to the value, lawful use and reasonable enjoyment of other properties in the vicinity of the proposed use or structure.

(8) *Period of validity.*

- (a) No conditional use permit shall be valid for a period longer than 18 months from the date on which the city council grants the conditional use permit, unless within such 18 months period:

1. A building permit is obtained, and the erection or alteration of a structure is started; or
2. An occupancy permit is obtained, and the conditional use is commenced.

The city council may grant one additional extension not exceeding 18 months, upon written application, without notice or hearing provided such grant is approved by city council prior to the expiration of the original 18-month period. No additional extension shall be granted without complying with the notice and hearing requirements for an initial application for a conditional use permit. This additional extension shall be considered to have begun on the date of expiration of the original conditional use permit regardless of when this additional extension is granted by city council.

- (b) When a conditional use is discontinued or abandoned for a period of 12 consecutive months (regardless of any reservation of an intent not to abandon or to resume such use), such use shall not thereafter be reestablished or resumed unless a new conditional use permit is granted by city council consistent with this section. The burden of proof shall be on the property owner to show that the conditional use has not been discontinued or abandoned for a period of 12 consecutive months or longer.

DEVELOPMENT REVIEW STAFF REPORT

COMPATIBILITY WITH COMPREHENSIVE PLAN:

The *Comprehensive Plan's Land Use & Development* chapter identifies the subject property as the Institutional and Employment placetype. The Institutional and Employment Center placetype contains a variety of major medical and office parks, and a collection of institutional and employer campuses. Large campuses are supported by small commercial sales and service business, and a mix of community-orientated amenities. Student housing is also a common component. In the case of universities or colleges, along with mixed housing types located along the fringes and transitional areas, providing housing near major employers is important. Areas within this placetype act as centers of culture, education, and business development, while providing numerous employment opportunities for residents of Springfield and others from the region. As Institutional and Employment Centers provide vital jobs and services to the entire metro area, multimodal accessibility and public transit connectivity are key components of this placetype. Underutilized parcels are assembled and redeveloped into more intense supporting uses or higher density housing developments where appropriate, to increase activity within the center. Planning for Institutional and Employment Center placetype focuses on infrastructure and corridor improvements to facilitate traffic flow, multimodal connectivity, and streetscaping improvements, needed to enhance the character and connectivity of key corridors. As these centers of activity receive high volumes of visitors and commuters into the City, it is essential that the quality of development and visual appeal of the corridors remain attractive and representative of the City's desired image.

LAND USES PRIMARY USES

- Universities, colleges, and vocational schools
- Government, healthcare, and institutional facilities

SUPPORTING USES

- Single-family detached
- Single-family attached
- Multi-family
- Parks, greenways, and open space
- Sports complexes and recreational facilities
- Office, hospitality, retail sales and service
- Maker, artisan and innovations spaces
- Public and private schools and places of worship

CHARACTERISTICS TRANSPORTATION & INFRASTRUCTURE

- Access management is improved for vehicles through curb cut consolidation and cross-access between commercial properties, reducing traffic conflicts and backups.
- Electric vehicle charging facilities, pedestrian and bicycle infrastructure, and automated vehicle parking and loading spaces are integrated along major corridors, installed at key destinations, and integrated into private development plans.

DEVELOPMENT REVIEW STAFF REPORT

- As technology, trends, and funds permit, utilities are buried or consolidated along rear property lines reducing conflicts with street trees, pedestrian infrastructure, and viewsheds.
- Transit service is prioritized at key employment centers, institutions, and along major corridors with bus stops enhanced with shelters and live timetables.
- The pedestrian environment is enhanced with expanded sidewalks and pedestrian infrastructure, such as benches, pedestrian-scaled lighting, and street trees.
- Best management practices for stormwater management are required in development projects and within public rights-of-way, such as permeable paving, rain gardens, green roofs, native landscaping, and other low impact design strategies.

URBAN DESIGN - BUILDING AND SITE TYPOLOGY

- Parking should be located behind or beside the primary buildings with abundant landscaping and screening to encourage greater interest and interaction between the adjoining street and the building, that contributes to community-wide quality of place.
- Pedestrian pathways within large parking lots provide safe access to business entrances.
- Character is enhanced by gateway features, landscaping, and branding elements, particularly within university, health care campuses, and innovation districts, to identify entry into campus areas.
- A greater focus on site design, parking access, massing, and building orientation are adopted to ensure development that is complementary to adjacent lower density residential development.
- Lighting, signage, landscaping, mail, and delivery accommodations should also be proactively incorporated into the site design.
- Multi-story buildings designed with active ground floor spaces should be visible and inviting with a high degree of transparency using clear glass windows and doors to increase a vibrant pedestrian environment.
- Use of quality materials, construction methods, workmanship, and design should be incorporated into new development and redevelopment.
- A mix of building heights is supported through structured site and building design strategies to soften the impact on adjacent lower intensity residential development.
- Design should discourage the placement of mechanical equipment along the adjacent streets or should be completely screened, along with trash receptacles, and recycling bins.

TRANSITIONS

- Strong connections to local universities, innovation districts, and neighborhoods are established through branding and connectivity.
- More intense institutional and employment uses and supporting uses are sufficiently separated and buffered from lower intensity residential uses.

	Drainage Basin	Fee in Lieu of Flood Control	Fee in Lieu of Water Quality	Stream Buffer on Site	Sinkhole or Watershed	Floodplain and Floodway
1525 N Campbell Ave	Jordan Creek Lower Branch	No, Existing Impervious	No	No	No	No

All chapter and section references below are to the City's Flood Control and Water Quality Protection Manual Version April 2022.

DETENTION AND DISCHARGE REQUIREMENTS

1. Site is 100% existing impervious area. Reduction of impervious area does not trigger detention for flood control.

WATER QUALITY REQUIREMENTS

1. Water Quality is required for new development projects or redevelopment projects, with new or increased impervious surfacing, within the city limits of Springfield that disturb 1 acre or greater. Including projects less than 1 acre that are part of a larger common plan of development or sale that will disturb 1 or more acres over the life of the project. Chapter 10 Sec. 2.0.
2. A land disturbance permit will be required with disturbing 1 acre or greater per Chapter 4 Section 5 of the City's Flood Control and Water Quality Protection Manual.

DEVELOPMENT REVIEW STAFF REPORT

3. Water Quality Credits are available to use in design for preserved trees and new planted trees. Landscaping and Bufferyards trees required by planning cannot be used for the water quality credits unless it is part of a SCM. Chapter 10, Section 3.1.

6. DEPARTMENT OF PUBLIC WORKS TRAFFIC DIVISION:

TRAFFIC REPORT

	Street Name	Street Classification	Jurisdiction	ROW from Centerline (ft.)		Traffic Count (vehicles per day)	On-Street Parking	Sidewalk	
				Required	Existing			Required	Existing
Street 1	N. Campbell Avenue	Collector	City	30	30	2,813	No	Yes	Yes
Street 2	W. Division Street	Primary Arterial	City	50	30	12,547	No	Yes	Yes

ACCESS - All access to the development shall comply with current City of Springfield standards for the street classification.

TRAILS, BUS STOPS, AND ADDITIONAL INFORMATION - There are no Greenway Trails near the property. There is one (1) bus stop on Division Street near the property.

IMPROVEMENTS - No improvements are required for this conditional use permit. A traffic study is not required for this conditional use permit.

STAFF ANALYSIS AND RECOMMENDATION:

1. The applicant, Carleton Resources, LLC, has requested this Conditional Use permit warehousing and storage facilities within a CC, Center City District, generally located at 1525 North Campbell Avenue. The applicant is proposing a new warehouse and storage building.

DEVELOPMENT REVIEW STAFF REPORT

2. The *Comprehensive Plan's Land Use & Development* chapter identifies the subject property as the Institutional and Employment placetype. This placetype allows for supporting uses such as government, healthcare, and institutional facilities.
3. A site plan has been provided (Attachment 4) showing the proposed and existing site and structures.
4. The applicant is providing perimeter landscaping along Division and Campbell Avenue. They are providing perimeter treatment consistent with any adopted streetscape plans for adjacent rights-of-way and with the materials and colors of the existing streetscape and surrounding structures. Staff believes each of these alternatives are acceptable and will need to be shown on a separate landscaping plan when the project is submitted for building permits. The perimeter treatment shall consist of one of the following:
 - a) A perimeter landscape area located adjacent to the street right-of-way, at least six feet in width and containing one understory tree and ten shrubs per 50 linear feet of street frontage.
 - b) A perimeter landscape area located adjacent to the street right-of-way, at least three feet in width and containing ten shrubs plus one understory tree in the sidewalk on the public right-of-way per 50 linear feet of street frontage.
 - c) A decorative wall or fence at least 30 inches high located adjacent to the street right-of-way, plus one understory tree in the sidewalk on the public right-of-way per 50 linear feet of street frontage.
5. A bufferyard Type J as prescribed by the Zoning Ordinance is being provided along the west property line and adjacent to the alley. A six-foot solid wood fence or six-foot solid masonry/brick wall or six-foot solid evergreen hedge shall be provided.
6. There are no building setbacks, off-street parking or open space requirements in the Center City District; however, the applicant is showing 24 percent green space.
7. Staff has determined that the requested rezoning and Conditional Use Permit are in general alignment with the objectives and intent of the *Comprehensive Plan's* Institutional and Employment Placetype as outlined in the Compatibility with the Comprehensive Plan section (above).
8. The proposed Conditional Use Permit was reviewed by City departments and comments are contained in the staff report (above).
9. The applicant held a neighborhood meeting on March 18, 2025, regarding the rezoning request. A summary of the meeting is attached (Attachment 3).
10. The public notice was advertised in the Daily Events at least 15 days prior to the public hearing. The property was posted by the applicant at least 10 days prior to the public hearing. Public notice letters were sent out at least 10 days prior to the public hearing to all property owners within 185 feet.

DEVELOPMENT REVIEW STAFF REPORT

STAFF RECOMMENDATION:

1. Staff recommends approval based on the proposal's general conformance to the *Comprehensive Plan's* Institutional and Employment Placetype and based on the development's compliance with the standards of approval below (Attachment 2).

PLANNING AND ZONING OPTIONS:

The Planning and Zoning Commission shall make one of the following recommendations in connection with each proposed conditional use:

1. Recommend against the proposed conditional use,
2. Recommend approval of the proposed conditional use, or
3. Recommend approval of the proposed conditional use together with recommendations which, in the judgment of the Planning and Zoning Commission, will protect adjacent property and ensure that the proposed conditional use is consistent with the purpose and intent of this article.

DEVELOPMENT REVIEW STAFF REPORT

ATTACHMENT 1 CONDITIONAL USE PERMIT NO. 481

1. The warehouse and storage facility uses shall comply with all the standards listed in Attachment 2.
2. The warehouse and storage facility uses shall be permitted in conformance with Attachment 4.
3. The perimeter treatment area as shown on Attachment 4 shall consist of one of the following:
 - a. A perimeter landscape area located adjacent to the street right-of-way, at least six feet in width and containing one understory tree and ten shrubs per 50 linear feet of street frontage.
 - b. A perimeter landscape area located adjacent to the street right-of-way, at least three feet in width and containing ten shrubs plus one understory tree in the sidewalk on the public right-of-way per 50 linear feet of street frontage.
 - c. A decorative wall or fence at least 30 inches high located adjacent to the street right-of-way, plus one understory tree in the sidewalk on the public right-of-way per 50 linear feet of street frontage.
4. All other standards of the Zoning Ordinance and other applicable Ordinances shall be adhered to.

DEVELOPMENT REVIEW STAFF REPORT

ATTACHMENT 2 STANDARDS FOR CONDITIONAL USE PERMIT NO. 481

Sec. 36-363 (10) Standards. An application for a Conditional Use Permit shall be granted only if evidence is presented at the public hearing which establishes the following:	Applicant's response:	Staff's response:
1. The proposed conditional use will be consistent with the adopted policies in the Springfield <i>Comprehensive Plan</i> .	No. The City's Comprehensive Plan identifies this parcel as a Mixed Use/Commercial zoned district which consists of residential, retail, office, institutional & public gathering spaces. The purpose of this CUP is to grant the owner approval to raze and rebuild the existing storage/warehouse space with a new storage/warehouse facility.	Staff has concluded that the proposed conditional use within the existing CC, Center City District is in general alignment with the <i>Comprehensive Plan's</i> Institutional and Employment Placetype designation.
2. The proposed conditional use will not adversely affect the safety of the motoring public and of pedestrians using the facility and the area immediately surrounding the site.	No. All facilities will be designed using the applicable City of Springfield and MUTCD traffic standards. These standards will ensure the safety of all vehicular and pedestrian traffic in and around the site.	Public Works – Traffic has reviewed the proposed conditional use and has determined that it will not adversely affect the safety of the motoring public or of pedestrians using the facility or within the immediate surroundings of the proposal.
3. The proposed conditional use will adequately provide for safety from fire hazards and have effective measures of fire control.	Yes. All facilities will be designed to the applicable Fire Department and International Fire Code requirements.	The Fire Department has reviewed the proposed conditional use and hasn't noted any concerns about fire safety and fire control measures. The Fire Department's comments are provided within the Department Comments section of the staff report, above.
4. The proposed conditional use will not increase the	No. Stormwater detention and water quality facilities	Public Works – Stormwater has reviewed the proposed conditional use and has

DEVELOPMENT REVIEW STAFF REPORT

hazard to adjacent property from flood or water damage.	will be provided, as required, per the City of Springfield design standards. The addition of a water quality or detention basin is not anticipated at this time as the redevelopment area is under one acre and should result in an overall increase in greenspace. All stormwater conveyance facilities will be sized using the appropriate City of Springfield design standards. These standards ensure that flooding and water damage does not occur on site nor downstream of the site.	provided their comments within the Department Comments section of the staff report, above.
5. The proposed conditional use will not have noise characteristics that exceed the sound levels that are typical of uses permitted as a matter of right in the district.	No. Activities intended for the use in this development will not be considered noise in nature. There are no anticipated changes in noise between the existing and proposed uses of the property as the use of the property are not changing.	Staff does not have any concerns pertaining to the anticipated noise levels associated with the proposed CUP uses which should fit in with the existing uses in the area.
6. The glare of vehicular and stationary lights will not affect the established character of the neighborhood, and to the extent such lights will be visible from any residential district, measures to shield or direct such lights to eliminate or mitigate such glare are proposed.	No. Lighting levels at the property lines will not exceed limits determined by the City of Springfield code requirements.	All future stationary lighting will be required to be meet the requirements and limitations of Section 36-484, Exterior lighting.
7. The location, lighting, and type of signs and the relationships of signs to	Yes. All signage, if added or required, will meet the	Any signage must comply with the requirements and limitations of the CUP approval standards

DEVELOPMENT REVIEW STAFF REPORT

traffic control is appropriate for the site.	requirements of the sign ordinance.	and Section 36-454, Signs, of the Zoning Ordinance.
8. Such signs will not have an adverse effect on any adjacent properties.	No. There are no existing signs on site & there are no proposed signs anticipated.	Any signage must comply with the requirements and limitations of Section 36-454, Signs, of the Zoning Ordinance.
9. The street right-of-way and pavement width in the vicinity is or will be adequate for traffic reasonably expected to be generated by the proposed use.	Yes. The existing warehouse facility use will remain the same with no anticipated changes to the current traffic volumes.	As noted by Public Works – Traffic, there are no concerns at this time regarding the proposal's impact on traffic in the area.
10. The proposed conditional use will not have any substantial or undue adverse effect upon, or will lack amenity or will be incompatible with, the use or enjoyment of adjacent and surrounding property, the character of the neighborhood, traffic conditions, parking, utility facilities, and other matters affecting the public health, safety and general welfare.	No. This development will help to enhance the property by replacing aging structures with new facilities. All landscaping and parking requirements will adhere to City of Springfield standards. As a result, there will be a reduction in pavement and an increase in landscaping to help ensure this development does not negatively affect neighboring properties.	Staff doesn't anticipate that the proposed development will adversely impact or be incompatible with the surrounding property.
11. The proposed conditional use will be constructed, arranged and operated so as not to dominate the immediate vicinity or to interfere with the development and use of neighboring property in accordance with the applicable district regulations. In determining whether the proposed conditional use will so dominate the immediate neighborhood, consideration shall be given to:	The proposed buildings, structures, fences, and/or walls within the conditional use permit area will be a significant improvement for the property & be designed to meet City of Springfield standards. The redevelopment project will require improvements to the existing landscape that will help enhance the property and provide improved screening for surrounding neighbors.	Staff doesn't anticipate any changes that would dominate the immediate vicinity or interfere with the development and use of the neighboring property.

DEVELOPMENT REVIEW STAFF REPORT

a. The location, nature and height of buildings, structures, wall and fences on the site; and b. The nature and extent of landscaping and screening on the site.	Landscape requirements will be designed to meet the City of Springfield standards.	
12. The proposed conditional use, as shown by the application, will not destroy, damage, detrimentally modify or interfere with the enjoyment and function of any significant natural topographic or physical features of the site.	No. The existing site is flat with minor changes in topography.	Staff has no concerns with the effects this use will have to surrounding properties.
13. The proposed conditional use will not result in the destruction, loss or damage of any natural, scenic or historic feature of significant importance.	No. There are not any know natural, scenic, or historic features of significant importance on the site.	Staff isn't aware of any features that will be destroyed or lost with the development of this site.
14. The proposed conditional use otherwise complies with all applicable regulations of the Article, including lot size requirements, bulk regulations, use limitations and performance standards.	Yes. All requirements have been considered following the pre-development meeting and will be further analyzed and designed to be in accordance with City of Springfield standards for center city zoning	The proposed use and site plan appear to comply with all district regulations.
15. The proposed conditional use at the specified location will contribute to or promote the welfare or convenience of the public.	Yes. The new facility will promote the health and welfare of the public.	The proposed use will contribute to the general welfare of the city.
16. Off-street parking and loading areas will be provided in accordance with the standards set out in 36-455, 36-456 and 36-483 of this Article, and such areas will be screened from any adjoining residential uses and located to protect such	Yes. All off-street parking will be in conformance with the requirements of the City of Springfield.	The development must meet the requirements of Section 36-455 of the Zoning Ordinance.

DEVELOPMENT REVIEW STAFF REPORT

residential uses from any injurious effect.		
17. Adequate access roads or entrance or exit drives will be provided and will be designed so as to prevent traffic hazards and to minimize traffic congestion in public streets and alleys.	Yes. All access to the site will comply with the requirements of the City of Springfield in an effort to reduce congestion.	The applicant is proposing a driveway closure on Division Street which will reduce traffic hazards and congestion at the intersection of Division and Campbell Avenue.
18. The vehicular circulation elements of the proposed application will not create hazards to the safety of vehicular or pedestrian traffic on or off the site, disjointed vehicular or pedestrian circulation paths on or off the site, or undue interference and inconvenience to vehicular and pedestrian travel.	No. Considerations have been made to help improve vehicular circulation by eliminating a high-risk access point along Division. Perimeter landscaping improvements along Division & Campbell will also help create separation between the vehicular use areas and the public sidewalk.	The applicant has worked with Public Works on their site plan to provide continued access to the site and less hazards to the safety of vehicles or pedestrians.
19. The proposed use, as shown by the application, will not interfere with any easements, roadways, rail lines, utilities and public or private rights-of-way.	No. All existing infrastructure & public or private rights-of-way have been identified and designed around.	There is not any known interference with any public rights-of-way or easements.
20. In the case of existing structures proposed to be converted to uses requiring a conditional use permit, the structures meet all fire, health, building, plumbing and electrical requirements of the City of Springfield.	Yes. The new warehouse utilities will be feed from the salvaged warehouse structure. Any required fire improvements will be designed to meet the 2018 IFC and City of Springfield design standards.	Any new or converted facilities must meet all City code requirements.
21. The proposed conditional use will be served adequately by essential public facilities and services such as highways, streets, parking spaces, police and fire protection, drainage structures, refuse disposal, water and sewers, and schools; or that the persons or agencies responsible for	Yes. All the listed services will be provided and coordinated throughout the project design, construction, and operational phases of the development.	The property is currently served by all public facilities and services.

DEVELOPMENT REVIEW STAFF REPORT

the establishment of the proposed use will provide adequately for such services.

AFFIDAVIT OF NEIGHBORHOOD NOTIFICATION AND MEETING SUMMARY

1. Conditional Use Permit for: 1525 N. Campbell Avenue
2. Meeting Date & Time: 3/18/2025 (4:00-6:30)
3. Meeting Location: Assemblies of God 1445 N. Boonville Avenue, Springfield, MO 65802
4. Number of invitations that were sent: 105
5. How was the mailing list generated: City of Springfield Planning Department
6. Number of neighbors in attendance (attach a sign-in sheet): 1
7. List the verbal comments and how you plan to address any issues:
(City Council does not expect all of the issues to be resolved to the neighborhood's satisfaction; however, the developer must explain why the issues cannot be resolved.)

Keith Fry (1605 N. Campbell Avenue):
 Wanted to know if the alley would be closed as part of this project (Confirmed that alley vacation is not anticipated).
 Shared concerns with dust and debris from construction activities
 (Informed him that there are a handful of requirements in place to help reduce this from happening & he could relay any concerns with dust/debris from construction activities to the City).

8. List or attach the written comments and how you plan to address any issues:

No written comments have been recieved

I, Will Hoey (*print name*), attest that the neighborhood meeting was held on 03/18/2025 (*month/date/year*), and is at least twenty-one (21) days prior to the Planning and Zoning Commission public hearing and in accordance with the attached "Neighborhood Notification and Meeting Process."

PROPOSED MOTION:

Move to approve the
Redevelopment Plan for the
Pinnacle on the Park
Redevelopment Area.

ATTACHMENTS:

Exhibit I: Legal Description
Exhibit II: Redevelopment Plan

SUMMARY OF REQUEST:

Pinnacle on the Park, LP (the “Applicant”) has filed a redevelopment plan pursuant to Sections 99.300-99.660, RSMo, the Land Clearance for Redevelopment Authority (LCRA) Law, for the Pinnacle on the Park Redevelopment Area, located at 525 South Campbell Avenue. The Area consists of a single 1.93-acre parcel of land that is zoned CC, Center City District, and is bounded by West Elm Street to the north, West Mount Vernon Street to the south, South Campbell Avenue to the east, and South Market Avenue to the west. The Area encompasses the Stillwell Columns Apartments, a 9-story, 142-unit public housing development constructed in 1982 to provide safe and decent housing for eligible low-income tenants.

The Housing Authority of Springfield has owned and operated the apartments since their construction. However, like many older public housing developments throughout the country, the Stillwell Columns Apartments are in need of extensive rehabilitation to address a backlog of

Planning and Zoning Commission Staff Report

deferred maintenance needs that have compounded over the years. To address those needs, the Housing Authority has partnered with Applicant to enroll the Stillwell Columns Apartments into the US Department of Housing and Urban Development's (HUD) Rental Assistance Demonstration (RAD) program. Under this program, Pinnacle on the Park, LP plans to leverage over \$31M of public and private investment into acquiring and rehabilitating the apartments. After completion, the apartment units will continue to provide safe and decent housing to low-income tenants in perpetuity through HUD's Section 8 Housing Choice Voucher Program.

The Redevelopment Plan proposes to completely rehabilitate the apartments, including all 142 dwelling units, common spaces, building exterior, and grounds. Upon completion, the apartments will be renamed the Pinnacle on the Park Apartments.

The Applicant is seeking City Council approval of the proposed Redevelopment Plan so that it may utilize partial real property tax abatement pursuant to the LCRA Law to help facilitate the proposed rehabilitation. As per the LCRA Law, the Planning and Zoning Commission shall review the proposed Redevelopment Plan and make recommendations as to its conformity with the City's general plan for the development of the City as a whole (i.e., the *Forward SGF Comprehensive Plan*). Staff recommends the Planning and Zoning Commission recommend approval of the Redevelopment Plan for the Pinnacle on the Park Redevelopment Area based on findings that said Redevelopment Plan conforms with the *Forward SGF Comprehensive Plan*.

COMPATIBILITY WITH THE *FORWARD SGF COMPREHENSIVE PLAN*:

The Redevelopment Plan conforms with the Forward SGF Comprehensive Plan in the following ways:

1. **Aligns with the Downtown Placetype:** The Redevelopment Area is located within the Downtown Placetype, which is intended to serve as the primary activity center of Springfield, accommodating a diverse mix of uses, including multi-family residential. The presence of a 142-unit housing development supports the goal of creating a vibrant and active downtown area by promoting increased residential density.
2. **Supports Housing Goals:** The Forward SGF plan emphasizes the need for providing quality, attainable housing opportunities for people of all backgrounds and stages of life. Rehabilitating an existing affordable housing development directly aligns with this goal by preserving and improving much-needed affordable units in a central location.
3. **Promotes Neighborhood Revitalization:** A key objective of the Forward SGF plan focuses on neighborhood revitalization through reinvestment in existing housing. The Redevelopment Plan supports this objective by rehabilitating and improving an apartment building that has been located within the West Central Neighborhood for more than 40 years, thus improving overall housing quality and potentially spurring additional neighborhood reinvestment.
4. **Enhances Quality of Place:** An overarching guiding principle of Forward SGF is improving "Quality of Place," partly defined by the built environment and amenity-rich neighborhoods. Reinvesting in existing housing stock contributes to this principle by maintaining and improving housing and supporting neighborhood stability. Providing and maintaining affordable housing options in a well-located area, especially when coupled with improvements to the building and site, contributes directly to the health and well-being of residents and the overall vibrancy of Downtown and the surrounding neighborhood.

Planning and Zoning Commission Staff Report

FUTURE PLACETYPES MAP:

Planning and Zoning Commission Staff Report

STAFF COMMENTS:

1. The Springfield LCRA considered the Redevelopment Plan on April 1, 2025. By a vote of 3 to 0, the Authority approved a resolution recommending approval and directing Staff to submit the Plan to the Planning and Zoning Commission for review and recommendations as to its conformity to the Comprehensive Plan, prior to forwarding its recommendations to the City Council.
2. Staff finds the Redevelopment Plan for the Pinnacle on the Park Redevelopment Area conforms with the *Forward SGF Comprehensive Plan*.
3. The Redevelopment Plan will enable the applicant to request partial real property tax abatement pursuant to the LCRA Law. Partial real property tax abatement pursuant to the LCRA Law is an economic development incentive used to encourage redevelopment of blighted areas. The Land Clearance for Redevelopment Authority may authorize partial real property tax abatement for redevelopment projects that conform with the Redevelopment Plan and comply with the Zoning Ordinance and all applicable codes and regulations. Real property tax abatement is based on 100% of the assessed value of qualified new construction or rehabilitation for 10 years.

REDEVELOPMENT PLAN
FOR PINNACLE ON THE PARK (STILLWELL COLUMNS) REDEVELOPMENT AREA
SPRINGFIELD, MISSOURI

January 30, 2025
Updated March 20, 2025

Redevelopment Plan

I. Introduction

KDC, LLC ("KDC") has partnered with the Housing Authority of the City of Springfield, Missouri, ("HAS") and their non-profit, Breckenridge Development Services, Inc. ("Breckenridge"), to develop and rehabilitate affordable housing in the City of Springfield, Missouri. A Partnership has been formed with these entities under the name of Pinnacle on the Park, LP. The overall project being financed is 142 units. All the Redevelopment Plan impacts total development costs, total units, and total funds.

Pinnacle on the Park, LP, a Missouri limited liability company (the "*Developer*"), has prepared the following plan (the "*Redevelopment Plan*") for the redevelopment of 2.5 acres in Springfield, Missouri. The Redevelopment Plan proposes completely redeveloping the Redevelopment Area (as defined below), by rehabilitating an existing blighted area built in 1982 and updating the tower building consisting of one hundred forty-two (142) residential units (the "*Project*"). The Development, located at 525 S. Campbell Ave., serves as an apartment complex with the following breakdown: 141-One Bedroom Units and 1-Two Bedroom Unit. The project will serve very low-income families with rents based on the residents paying no more than 30% of their adjusted income. The US Department of Housing and Urban Development will set the rents. These will be restricted and will have a contract for project-based vouchers as follows:

Unit Type	#of Units	Monthly Rent
1 BR-RAD	50	866
1 BR-PBV	84	866
1 BR (De Minimis)	7	875
2 BR-PBV	2	1087

The property is made up of a nine-story tower building. The Project will provide housing for approximately 142 residents. Real property tax abatement will be utilized to encourage such redevelopment. The Developer will be investing equity projected to be \$11.8 million of the total rehabilitation cost for this project to redevelop the site.

The County Assessor's office has indicated that it will assess the project as tax-exempt upon completion due to the Public Housing Authority's ownership interest in the project. Therefore, Authorization of the tax abatement under this plan neither conveys any benefit nor has any impact on the taxing district. The project is seeking tax abatement to mitigate risk and provide necessary assurance for the investors in case the Assessor is compelled to assess the improvements as taxable real estate during the abatement period.

II. Background:

There is a nine-story tower building to be rehabilitated in the Redevelopment Area. HAS built the existing development in 1982. Pinnacle on the Park, LP, will acquire the property with HUD's approval and the project will be renovated under HUD's Rental Assistance Demonstration Program ("RAD").

III. RAD

RAD was created to give public housing authorities ("PHA") a powerful tool to preserve and improve public housing properties and address the \$35 billion-dollar nationwide backlog of deferred physical needs. RAD also gives the public housing authorities the opportunity to enter long-term contracts that facilitate the financing of improvements. RAD allows public housing agencies to leverage public and private debt and equity to reinvest in the public housing stock. This is critical given backlog of public housing capital needs - estimated at over \$35 billion at this time. There is an estimated \$9.8 million total of physical needs at the Pinnacle on the Park Development. In RAD, units move to a Section 8 platform with a long-term contract that, by law, must be renewed in perpetuity. A Use Agreement is also recorded under RAD further enforcing HUD's long-term interest. This ensures that the units remain permanently affordable to low- income households. Residents benefit from the right of return, prohibition against re-screening, and robust notification and relocation rights. Residents continue to pay 30% of their adjusted income towards the rent, maintain the same basic rights as they possess in the public housing program, and gain a new option to request tenant-based assistance if they wish to subsequently move from the property. RAD maintains the ongoing public stewardship of the converted property through clear rules requiring ongoing ownership or control by a public or non-profit entity. HAS will continue to own the ground and lease it to the partnership. HAS's nonprofit, Breckenridge Development Services, Inc., is part of the ownership structure and redevelopment effort. HAS has the first right of refusal to own the property after the private investor exits the partnership. RAD is highly cost-effective, relying on shifting existing levels of public housing funds to the Section 8 accounts as properties convert.

IV. TAX EXEMPTION and PRIVATE INVESTMENT

The property is currently classified as Tax Exempt. However, to leverage private investment to the property, HAS must take several actions to address the inadequate funds that have led to the backlog of physical needs and blight. To address rehabilitation and deferred maintenance needs, HAS entered HUD's RAD program which authorizes a conversion of the properties federal funding from one form to another (Section 8), removing any impediments to private capital investments. Resources available under the Section 8 platform include Low-Income Housing Tax Credits (LIHTC), tax exempt bonds, HOME funding, Housing Trust Funds and other sources specifically geared toward the

rehabilitation, acquisition, and new construction of affordable housing units. These resources make it economically feasible to upgrade older housing units or invest in efficiencies and quality of life that would otherwise not be possible. Projects awarded LIHTC must be owned by a "single-asset entity," typically made up of a general partner and a limited partner who provides equity for project development in exchange for tax credits. Under the tax credit platform, HAS retains ownership interest in the single-asset entity via a partnership agreement, maintains ownership of the land upon which the affordable rental units are located, holds a right of first refusal to the real estate and actively participates in the day-to-day operation of the business. With this structure, HAS units will remain earmarked for affordable housing, with layered funding via Federal, State, and Local sources which were previously unavailable to the authority. This ownership structure would cause the tax-exempt status to cease and no longer be available to this property. The Chapter 99 abatement incentive results in a reduction to a project owner's annual local property tax liability, thus, creating cashflow that can make a marginal project economically feasible or allow an even larger development to be financed that might otherwise not be possible without the Chapter 99 abatement incentive. While the County Assessor has indicated that the project would maintain tax exempt status due to the policy of the Assessor's office, the project is pursuing tax abatement under Chapter 99 to mitigate any risk and to provide the required assurances investor partners in this project. The organizational structure is such that the net cash flow generated will be available primarily to HAS.

V. Description of the Project

A. Boundaries of the Redevelopment Area

The area being redeveloped contains approximately 2.5 acres and is situated on the 500 Block of South Campbell Avenue in the City of Springfield, Missouri (the "**Redevelopment Area**"). A map identifying the Redevelopment Area is attached hereto and incorporated herein as Exhibit "A," and the Redevelopment Area is legally described on Exhibit "B," which is attached hereto and incorporated herein.

B. Need for Redevelopment

i. THE CITY OF SPRINGFIELD, CONSOLIDATED PLAN, FISCAL YEARS 2020-2024 (DRAFT)

This plan recognizes that the demand for affordable housing is expected to continue, which analysis is based on four indicators: (a) the population statistics show that the lower income level is increasing, (b) Public Housing waiting lists, (c) the low vacancy rates of HUD assisted units, and (d) the number of LIHTC applicants that want to develop in the Springfield market. As a part of the Consolidated Plan, based on the market studies by LIHTC applicants and HUD's Low- and Moderate-Income Summary Data and the number of foreclosed and vacant housing units, there is an increasing need for decent affordable housing. This is expected to grow at a moderate increase for the next 5 years of over 4,000 households with current population and growth trends and unemployment at very low

levels; and therefore, the City foresees a continued need for housing for the whole range of income levels from 30% AMI to 120% AMI over the planning period. The City expects that the rehabilitation of older units located outside of the target area will continue as the residents and owners stay in place and as the home-remodeling companies continue to promote cost-effective rehabilitation. The City continues to encourage rehabilitation or redevelopment of older housing stock as it is close to schools, services, and vital public transit lines.

Certification of Consistency with the Consolidated Plan was issued by Bob Jones on February 28, 2024. City of Springfield Resolution No. 2219 was adopted March 20, 2020, approving submission of the Five-Year Plan and Annual Plan and PHA Certifications of Compliance with the PHA Plans and related regulations.

**Certification of Consistency
with the Consolidated Plan**

U.S. Department of Housing
and Urban Development

ii. HAS ANNUAL PUBLIC HOUSING PLAN

The PHA Plan is a comprehensive guide to PHA policies, programs, operations, and strategies for meeting local housing needs and goals. There are two parts to the PHA Plan: the 5- year Plan, which each PHA submits to HUD once every 5th PHA fiscal year, and the Annual Plan, which is submitted to HUD

every year by non-qualified agencies. HAS submits an annual Public Housing Plan to HUD each year that residents and the community provide input and comments. The 2024-2028 Plan outlines the need for RAD and the investment need for rehabilitation in the Pinnacle on the Park Redevelopment Area.

C. Current Condition of Redevelopment Area.

As discussed in the preceding Blight Report, notwithstanding the Housing Authority's reasonable efforts to maintain the Redevelopment Area, the Redevelopment Area suffers from much physical deterioration, insanitary and unsafe conditions, and is afflicted by conditions which may endanger life or property. HUD has not provided enough annual funding to cover the backlog of physical needs. The annual Capital Funds are approximately \$1,200 per unit per year and the average backlog of physical needs is \$25,000 per unit per year. Therefore, the redevelopment area is in gross need of leveraged funding to address the physical needs and make the development sustainable for the next twenty years.

Substantial capital investment will be needed to fully rehabilitate and revitalize the Redevelopment Area, which further compounds the economic obsolescence of the Redevelopment Area. The Developer will be investing an estimated \$11.8 million of equity into a project with a total development cost of \$31 million. The sources of funding include:

SUMMARY INFORMATION Pinnacle on the Park (Stillwell Columns)

Sources and Uses			
	Total		Per Unit
Uses			
Land	\$ -	\$ -	-
Building Acquisition	11,680,000	\$ 82,254

Total Sources	\$ 31,925,469	\$ 224,827	
Cash Paid Development Fee	\$ 1,715,986	\$ 12,084	

The insanitary/unsafe site conditions present in the Redevelopment Area pose a serious threat to public safety and health - especially since the Pinnacle on the Park Redevelopment Area serves a vulnerable population of residents at 30% or below the area median income. Each of these factors contribute to the economic and social liability created by the area in that they cause a risk of physical injury to the City's citizens and damage to surrounding property.

Comprehensive renovation of the Redevelopment Area is necessary to foster additional economic activity and contribute to the growth of the City. Remediating all the issues discussed above is economically infeasible, since the likely costs of the repairs far exceed what HAS gets annually from HUD. Due to the age of development and dwelling units they are becoming functionally obsolete. Without systematic rehabilitation the units will not be sustainable to provide housing for the very low-income residents.

Due to the condition and layout of the Redevelopment Area, substantial capital investment will be necessary to rehabilitate the existing structure and generally redevelop the area. Without such an investment, the Redevelopment Area will further deteriorate. The development area will continue to decline and become an even greater liability to the economic independence of the City. The unsafe conditions in the Redevelopment Area hampers the economic vitality of the City by failing to generate private and public partnership investment opportunities for the City. If the Pinnacle on the Park Redevelopment Area is not addressed to its full potential, it may significantly limit the number of people who can reside in the Redevelopment Area.

D. Redevelopment Plan Objectives and Strategies

Affordable housing is needed in the Redevelopment Area. To have safe, sanitary, livable units, blight must be removed, and the area redeveloped as affordable housing serving the very low income. Redevelopment provides affordable housing opportunities in the larger community, removes barriers to furthering fair housing through the addition of ADA and Section 504 units, and assists in preventing homelessness. The Project involves the rehabilitation of a nine- story tower building consisting of one-hundred forty-two residential units. The bedroom mix and rents are as follows:

Unit Type	# of Units	Rent
1 BR-RAD	50	866
1 BR- PBV	84	866
1 BR (De Minimis)	7	875
2 BR-PBV	1	1087

The appearance of the structure through thoughtful redesign and preservation is key. In total, the project will accommodate up to approximately 142 residents. The Project will also provide on-site parking and will utilize outdoor lighting as needed with the intent of creating a safe living environment for the residents. There will be a fencing system in place to add to enhanced security efforts. The Project will include landscaping and architectural/design elements and will incorporate updated design features.

V. Land Use Plan:

A. Former and Existing Land Use

The Redevelopment Area currently consists of a nine-story, one hundred forty-two-unit residential tower building on 2.5 acres. The property was developed into low-income public housing in 1982 and under this redevelopment plan will remain affordable housing.

B. Proposed Land Use

The land use will remain unchanged as a rehabilitated multifamily residential building consisting of 142 residential units. The Development located at the 500 block of S. Campbell Avenue will include the nine-story tower building consisting of 142 Units, with the following breakdown: 141-One Bedroom Units, and 1-Two Bedroom Unit. The land will remain the same.

There will be 5% ADA handicapped units and 2% of the units available for hearing and seeing impaired. A preliminary site plan reflecting the proposed land use in Redevelopment Area is attached as Exhibit "C" and incorporated herein.

C. Existing and Proposed Zoning

The existing zoning for the Redevelopment Area is, according to the City of Springfield, zoned CC, Center City District. The Redevelopment Plan is not proposing new zoning and will be developed according to the zoning requirements.

D. Regulations and Controls

Renovation of the Redevelopment Area shall be subject to all applicable Springfield, Missouri Codes and Ordinances, including the District Regulations. HUD will have restricted covenants on the land use and affordability of the units. MHDC will also have land use restrictions governing affordability and ownership.

V. Execution of the Project:

A. Execution

The Developer or its successors in interest shall be responsible for executing the redevelopment of the Redevelopment Area in accordance with the Redevelopment Plan.

B. Land Acquisition

There will be no land acquisition required to implement the Redevelopment Plan, as the Developer partner, HAS, owns the land within the Redevelopment Area.

Organization Chart

Pinnacle on the Park, LP - Ownership Chart

C. Financing

The Developer is utilizing conventional financing to finance the Project along with LIHTC. Sources and Uses are referenced below, as well as, referenced in "Exhibit E" attached.

Pinnacle on the Park

Sources and Uses			
	Total		Per Unit
Uses			
Land	\$ -	\$ -	-
Building Acquisition	11,680,000	\$ 82,254	
Hard Costs	10,893,684	76,716	
Soft Costs	5,382,585	37,906	
Reserves	1,489,200	10,487	
Development Fee	2,480,000	17,465	
Total Uses	\$ 31,925,469	\$ 224,827	
Sources			
1st Mortgage Loan	\$ 6,660,000	\$ 46,901	
Seller Note	11,680,000	82,254	
HAS Loan	165,000	1,162

Deferred Dev Fee	764,014	5,380	
Equity	11,809,455	83,165	
Total Sources	\$ 31,925,469	\$ 224,827	
Cash Paid Development Fee	\$ 1,715,986	\$ 12,084	

D. Disposition of Property

No land is proposed to be disposed of within the Redevelopment Area.

E. Plan for Relocation Assistance

The development will provide for all temporary relocation. The Pinnacle on the Park project has accumulated some vacancies at the site. Families will be relocated within the HAS public housing sites through temporary relocation in accordance with HUD's RAD relocation Notice, URA, and MHDC. All expenses will be paid for by the project. No original RAD residents will be displaced or rescreened for suitability. (Please see Exhibit "G" HUD's approved relocation plan.)

F. Redevelopment Schedule and Estimated Dates of Completion

The Developer estimates that each stage of the Project will be completed in accordance with the following schedule:

- Pre-Construction (Inspections/Permits): Completed by May 2025
- Rehabilitation of units: Completed by November 2026
- Re-occupancy of site and new lease up completed by December 2026

G. Taxation

The Developer or its successors in interest may apply to the Land Clearance for Redevelopment Authority for tax relief pursuant to Sections 99.700 to 99.715 of the Missouri Revised Statutes, 2000.

H. Covenants

The Redevelopment Plan shall run with the land and require the Developer and any successors in interest to redevelop the real property within the Redevelopment Area in accordance with the specified uses in the Redevelopment Plan if they wish to benefit from tax relief available under Sections 99.700 to 99.715 of the Missouri Revised Statutes, 2000.

VI. Other Provisions:

A. Compliance with General Plans

The Redevelopment Plan for the Redevelopment Area conforms to the rules and the regulations of the City of Springfield, Missouri.

B. Compliance with Workable Program

Pursuant to Section 40-13(a)(I) of Article II of Chapter 40 of the Springfield City Code (the "Code"), the Project described in this Redevelopment Plan would not be financially feasible "But-for" the allowance of tax abatement. The City of Springfield's *Economic Development Incentives Policy Manual* states under its General Policies that requests for discretionary incentives, such as partial real

property tax abatement, shall meet the "but for" test. There must be a finding by the City Council that the project would not occur, or would only occur on a significantly smaller scale, or will not be financially feasible or stable, or that public benefit will not occur if the incentive is not provided." The Policy Manual also mentions that such incentives may be granted if the City Council finds there to be an overriding public benefit or a reduction in costs that would otherwise be paid by the City. Exhibit E contains two project proforma financial statements (one with tax abatement, one without) provided by the Developer, each providing yearly cash flows and cash-on-cash return analyses. The cash-on-cash return is a measure of the annual rate of return made on the developer's equity or cash invested in the project. This calculation is one method of determining whether a project can provide a return on investment necessary to attract developer capital. The projections provided within these statements indicate that real property tax abatement is necessary for the project to proceed. Exhibit E also includes an amortization schedule and additional information that supports the conclusion that "but for" the tax abatement provided to the Project that the development of this high quality and attractive neighborhood providing housing for 142 families that are at or below 60% Area Median income that eliminates existing blight would not be feasible. Exhibit "E" contains a project budget supporting the estimates of the Developer and appraisal. The Developer here is making a significant contribution of equity to support this Project at levels that make it financially feasible for a private public partnership to attract the needed financing sources.

The County Assessor has indicated that the project will remain tax exempt. However, for assurances with the investors and risk management, the project is seeking tax abatement.

C. Compliance with State and Local Law

The Redevelopment Plan shall be implemented in conformance with the requirements of state and local law. The Redevelopment Plan is also in compliance with HUD, MHDC, and the Springfield Housing Authority Public Housing Annual and 5 Year Plan. The Redevelopment Plan conforms with the City's Comprehensive Plan.

D. Compliance with Redevelopment Agreement

Before the application for a Certificate of Qualification for Tax Abatement (the "Certificate") is issued in connection with this Project, a redevelopment Agreement must be executed between the applicant for the Certificate and the City. The provisions of the Redevelopment Agreement between the City and the applicant are essential provisions of the Redevelopment Plan and violations of the Redevelopment Agreement shall also constitute violations of the Redevelopment Plan. The Redevelopment Agreement shall, at a minimum, address the requirements specified in Section 4-14 of the Code.

E. Population Density

The Project will provide 142 housing units on a 2.5-acre site. In total, the Project will provide housing for 142 families.

F. Public Facilities

It is not anticipated at this time that the Project will require any additional utilities other than the upgrades needed to address code and the blight concerns. There will be a resident community space to address the social services needed for enhanced resident opportunities. (Please see Exhibit "I" Service Enrichment Letters of Support.)

VII. Procedure for Changes or Modification of Plan

Upon application by the Developer or its successors in interest, the Redevelopment Plan may be amended or modified by the Land Clearance for Redevelopment Authority with the consent of the Planning and Zoning Commission. When the proposed amendment or modification substantially changes the Redevelopment Plan, the City Council must also approve the amendment or modification.

Assessment factor	2%

Likely Scenario

Subject Property is tax exempt and will remain so after completion. The impact analysis to taxing districts should reflect this scenario.

Hypothetical Scenario

Subject Property is assessed as taxable real estate upon completion. Property tax abatement is approved, and the assessed valuation is frozen at \$737,292 (current valuation of the improvements as per Assessor) for the 10-year abatement period.

This scenario will be detailed in the pro forma in the Redevelopment Plan to demonstrate the need for abatement should the subject property be assessed in this manner. Estimated RE taxes with vs without abatement will be the independent variable in this analysis.

Blight Report
Stillwell Columns Redevelopment

I. General

The Land Clearance for Redevelopment Authority Law is outlined in Section 99.330 through 99.660 of the Missouri Revised Statutes and was enacted in 1951 to help local municipalities eradicate “blighted areas” in the community and to encourage rehabilitation and redevelopment of those areas by private enterprise. Through the LCRA law, municipalities and private citizens can work together to achieve the goal of fostering economic opportunities and improving property values in cities throughout Missouri.

The LCRA Law defines “blighted area” as an area which, by reason of predominance, of (1) defective or inadequate street layout, (2) insanitary or unsafe conditions, (3) deterioration of site improvements, or (4) the existence of conditions which endanger life or property by fire and other causes, or any combination of such factors, (a) hinders the provision of housing accommodations, (b) constitutes an economic or social liability, or (c) constitutes a menace to the public health, safety, morals, or welfare in its present condition and use. Missouri courts have determined that a finding of blight is proper where, when considering an area in its present condition and use, the first five factors listed in the first half of Section 99.320(3) above, whether individually or in combination, produce one of the circumstances named in the second half of this Section.

A. Introduction:

This Blight Report is for the Stillwell Columns Redevelopment Area (this “***Blight Report***”) is being submitted by KDC, LLC, a Mississippi limited liability company (such entity, or its successor and assigns, is referred to as the “***Developer***”), to demonstrate that the Redevelopment Area (as defined below) should be declared blighted according to the LCRA Law. This Blight Report will demonstrate (i) that the Redevelopment Area is a “blighted area” under the LCRA Law due to the predominance of (1) deterioration of site improvements, (2) unsanitary and unsafe conditions, and (3) the existence of conditions which endanger life and property by fire and other causes, and (ii) because of the aforementioned conditions, the Redevelopment Area hinders the provision of housing accommodation, constitutes an economic and social liability, and is a menace to the public health, safety, morals, and welfare in its present condition and use. Importantly, the determination of blight focuses on whether the Redevelopment Area, as a whole (and not individual lots), suffers from a predominance of the conditions.

B. Background:

The Developer shall remediate blight and redevelop the area per the Redevelopment Plan following this blight report.

The residential structure in the Redevelopment Area is a tower building on a square parcel of land bordered by South Campbell Avenue, West Mount Vernon Street, South Market Avenue, and West Elm Street. The residential structure is commonly and currently known as Stillwell Columns and is currently owned and operated by the Housing Authority of Springfield as public housing. The property will be converted under HUD's Rental Demonstration Program to affordable housing as part of the redevelopment plan. Since the property is owned and operated by the Housing Authority, it has remained habitable through public funds. These funds are limited and can only go so far. Through the RAD program, the partnership will enter a ground lease where the partnership will lease the land from the Housing Authority but own the improvements to the property. This Blight Report establishes a finding of blight and requests support for the Stillwell Columns Redevelopment Plan Area.

II. Redevelopment Area Description

The Redevelopment Area includes approximately 1.9348 acres. of real property located on S. Campbell Avenue in the City of Springfield, Missouri (the "**Redevelopment Area**"). A map identifying the Redevelopment Area is attached hereto and incorporated herein as Exhibit A and the Redevelopment Areas is legally described on Exhibit B attached hereto and incorporated herein. The proposed redevelopment area is located just outside the existing Chapter 99 Downtown Redevelopment area.

III. Evidence in Support of Blight

The LCRA Law provides municipalities with a tool to encourage the redevelopment of areas within a city by private developers, which facilitates the renewal of downtrodden portions of a city without necessitating excessive expenditures of public funds. The City of Springfield (the "City") has utilized this tool over the past few decades in blighting large tracts of property throughout the city. The proposed Redevelopment Area is just outside of the boundaries of the existing Chapter 99 Downtown Redevelopment Area.

The property within the Redevelopment Area, which is nearing the end of its economic life, is of comparable age and in similar condition to many of the blighted properties within these adjacent areas.

The key factors evidencing the Redevelopment Area as a “blighted area” under Section 99.805 of the Missouri Revised Statutes are discussed in detail below. Photographs demonstrating some of these factors are included in Exhibit E.

A. Deterioration of Site Improvements

In general, deterioration refers to any physical deficiencies or disrepair in buildings or site improvements requiring treatment or repair. Deterioration may be evident in basically sound buildings containing minor defects, such as lack of painting, loose or missing floor tiles or ceiling panels, or holes and cracks over limited areas. Deterioration not easily curable and unavailable during normal maintenance includes defects in primary and secondary building components. Primary building components include the foundation, exterior walls, floors, roof, elevators, wiring etc. Secondary building components include doors, windows, frames, fascia materials, etc. Deterioration of sidewalks, parking areas, and other similar site improvements is evidenced by settled areas, gravel sections, cracks. Overgrowth, or depressed curb areas.

A Physical Needs Assessment completed by BBG Real Estates Services for the Stillwell Columns property reflected deterioration due to deferred maintenance. The Redevelopment Area has approximately \$862,000 worth of repairs needed over the next twenty years. Rehabilitation costs to modernize and bring the property up to date is estimated to be \$9,768,807. These costs are necessary to improve the property and the lives of its residents.

Stillwell Columns

Stillwell Columns is a nine-story tower building comprised of one hundred forty-two (142) residential units at 525 S. Campbell Avenue in Springfield. The asphalt pavement is uneven due to cracking and settling, resulting in a tripping hazard and needs immediate repair. The exterior walls of Stillwell Columns show deterioration, which requires repair and/or repainting as well as recaulking/repointing brick. Roofing systems also need attention, as well as exterior doors. The Redevelopment Area contains a preponderance of deterioration of site improvements, under LCRA Law’s definition of a “blighted area.”

B. Insanitary/Unsafe Conditions

In addition to the general physical deterioration discussed above, the Redevelopment Area is also afflicted with a variety of insanitary and unsafe conditions.

Several areas of the flooring in the building tested positive for asbestos, including public and private spaces causing unsafe conditions for the residents. The project plans to address these areas and they will be abated and removed or encapsulated as required by law.

There is evidence of water damage at Stillwell Columns along the entry ways. The dampness and moisture is evidenced by stains inside the Stillwell Columns tower. All sources of water intrusion should be identified and rectified.

The property has two passenger elevators servicing approximately 142 senior, handicap, and disabled families. The elevator is 22 years old and typical life cycle expectancy is 20-30 years, depending on usage and upkeep. Because of the population the elevators services, it gets more than normal usage and the residents rely heavily upon it on a daily basis. Many residents cannot utilize the stairway due to their physical limitations, so it is critical that the elevators always remain in top shape to meet the safety needs of the residents of the building. The current age of cars presents problems with obsolete components and extended downtime due to parts not being available as needed. Over the past years, the cars have required work around solutions to deal with obsolete components and manage down times to meet the needs of the resident families. Currently the elevator lacks some new modern safety code components such as the Rope Gripper device and must be either modernized or replaced to provide the highest safety service. Due to the age of the system and desire for long-term longevity, the project must replace both elevator cars with new equipment that will provide a safer riding experience for the residents of the building. This will also provide a safer working environment for the technicians and staff who provide a service for the equipment. The current service provider has indicated it is important that we upgrade or replace this equipment as soon as possible to ensure the safety of the families utilizing the equipment

As noted in the photos and Physical Needs Assessment report attached, many of the sidewalks and walkways have cracks and are uneven creating trip and fall hazards. Uneven surfaces on exterior and interior should be repaired. To become habitable, among other things, the Stillwell Columns will need to update/repair fire alarm systems, HVAC, plumbing, electrical, and kitchen appliances.

C. Conditions that Endanger Life or Property by Fire or other Causes

Endangerment by fire and other causes is typically due to structures below minimum code standards. Such code standards include building, property maintenance, fire, environmental or other governmental codes applicable to a particular property. The principal purpose of such codes is to require building to be constructed and maintained so that they will have the capacity to support the type of occupancy and necessary fire and similar hazard protection or to establish

the minimum standards essential for safe and sanitary use, occupation, and/or habitation. Updates to the ADA units including audio and visual ADA units, modernization of the elevator, and floor replacement are all items in the scope of work to provide safe affordable housing to the residents of Springfield.

IV. Impact of the Redevelopment Area's Blight Conditions:

Missouri law only requires that the current condition of a redevelopment area produce one (1) or the three (3) following circumstances for a finding of blight: 1) it hinders the provision of housing accommodations 2) it constitutes an economic or social liability, or 3) it is a menace to the public health, safety, morals, and welfare. However, the combination of blighting factors plaguing the Redevelopment Area creates all three (3) of these circumstances.

The Redevelopment Area is deteriorating, and many areas of development are reaching the end of their useful life. The building in the Redevelopment Area appraised for approximately \$7,285,000 in 2019. The building in the Redevelopment Area is currently tax exempt and has a P.I.L.O.T Agreement. Based on the 2019 appraisal the building estimated taxes would range between \$261.88 and \$616.89 per unit under the new ownership. The building will remain a low-income housing development with restricted rents.

CASE:

Redevelopment Plan for the Hampton-Florence Redevelopment Area

LOCATION:

East side of the 300 block S Hampton Ave, west side of the 300 block S Florence Ave, and the south side of the 1100 block E McDaniel St

STAFF:

Matt D. Schaefer, AICP
417-864-1100

STAFF RECOMMENDATION:

Approve

PROPOSED MOTION:

Move to approve the Redevelopment Plan for the Hampton-Florence Redevelopment Area.

ATTACHMENTS:

Exhibit I: Legal Description
Exhibit II: Redevelopment Plan

SUMMARY OF REQUEST:

Soflo, LLC (the "Applicant") has filed a redevelopment plan pursuant to Sections 99.300-99.660, RSMo, the Land Clearance for Redevelopment Authority (LCRA) Law, for the Hampton-Florence Redevelopment Area. As per the LCRA Law, the Planning and Zoning Commission shall review the proposed Redevelopment Plan and make recommendations as to its conformity with the City's general plan for the development of the City as a whole (i.e., the *Forward SGF Comprehensive Plan*).

Staff recommends the Planning and Zoning Commission approve the Redevelopment Plan for the Hampton-Florence Redevelopment Area based on findings that said Redevelopment Plan conforms with the *Forward SGF Comprehensive Plan*.

REDEVELOPMENT PLAN FOR THE HAMPTON-FLORENCE REDEVELOPMENT AREA:

The Hampton-Florence Redevelopment Area encompasses 1.33 acres situated on six parcels generally bounded by East McDaniel Street to the north, an alley to the south, South Florence Avenue to the east, and South Hampton Avenue to the west. The Area is zoned R-HD, High-density Multi-family Residential District and is currently occupied by seven partially constructed duplexes and six single-family residential dwellings that were constructed between the years 1890 and 1947.

The Redevelopment Plan for the Hampton-Florence Redevelopment Area proposes to redevelop the area for low-density multi-family residential housing that will include up to 14 new, two-story duplexes fronting South Hampton Avenue and South Florence Avenue. Off-street parking will be provided behind the duplexes, accessible via a public alley located along the south side of the Redevelopment Area. As part of the proposed redevelopment, the Applicant will make significant improvements to the public alley, dedicate right-of-way along South Hampton Avenue, and extend sanitary sewer east along East McDaniel Street from South Hampton Avenue. The Applicant owns the south half of the Redevelopment Area, on which seven duplexes are currently being constructed, and is in the process of acquiring the remainder of the Area. Therefore, the Redevelopment Plan proposes to redevelop the Area in the following phases:

Phase 1: Soflo Project Area

(316-324 S Hampton Ave & 315-327 S Florence Ave)

The Soflo Project Area originally consisted of four parcels located within the south half of the Redevelopment Area that were recently occupied by four residential structures, which included two single family residential dwellings, a non-permitted duplex, and a triplex. The Applicant acquired these properties in 2023 and 2024, and subsequently demolished the existing structures and combined them into a single parcel, on which seven two-story duplexes are currently being constructed. Construction began in fall 2024 and is estimated to be completed in fall 2025.

Phase 2: Hampton Suites Project Area

(306 S Hampton Ave, 307 & 311 S Florence Ave, and 1100-1104 E McDaniel St)

The Hampton Suites Project Area consists of four parcels located within the north half of the Redevelopment Area that are currently occupied by five single-family residential dwellings. The Applicant is currently under contract to purchase these properties. Once acquired, the Applicant will demolish the existing structures, combine the parcels, and construct six additional two-story duplexes that will front onto South Hampton Avenue and South Florence Avenue. Construction is estimated to begin in fall 2025 and to be completed in fall 2026.

Phase 3: Flo 301 Project Area

(301 S Florence Ave)

The Flo 301 Project Area consists of a single parcel located at the southwest corner of South Florence Avenue and East McDaniel Street that is currently occupied by a single-family residential dwelling. The Applicant is currently pursuing a first right of refusal agreement with the property owner. The timing of the acquisition of this property is not certain. However, once acquired, the Applicant will demolish the existing structure and construct an a single, two-story duplex.

Upon completion of all three phases the Redevelopment Plan will result in the construction of 28 new residential dwelling units on 1.33 acres (approx. 21 du/acre) in Center City.

Planning and Zoning Commission Staff Report

HAMPTON-FLORENCE REDEVELOPMENT PROJECT AREAS

Hampton-Florence Redevelopment Area

COMPATIBILITY WITH THE *FORWARD SGF COMPREHENSIVE PLAN*:

The Redevelopment Plan is consistent with the Mixed-use placetype. According to the *Forward SGF Comprehensive Plan*, this placetype functions as an activity center that provides a diverse mix of residential, commercial, office, entertainment, and dining options, sometimes in the same building or on adjacent parcels, creating vibrant and dynamic districts. Standalone multi-family residential development in this placetype is appropriate if applied in a context-sensitive manner that supports an overall vision to create a vibrant and interconnected place. The Redevelopment Area is situated one block north of Walnut Street (a mixed-use district/corridor), one block south of East Saint Louis Street (a downtown arterial) and adjacent to single-family and multi-family residential uses. The proposal to construct duplex dwellings (i.e., low-density multi-family residential) at this location complements surrounding properties and provides residential infill to support higher intensity commercial and mixed-uses along Walnut Street and East Saint Louis Street.

The Redevelopment Plan facilitates infill development within an established residential area, consistent with one of Forward SGF's goals to prioritize infill and redevelopment over outward expansion, maximizing the use of existing infrastructure and promoting more compact development. It also contributes to the goal of diversifying housing by focusing on the "missing middle" housing type. Missing middle housing is a housing type that sits between single-family homes and mid-rise apartments and includes duplexes, triplexes, townhouses, and fourplexes. It is specifically mentioned in *Forward SGF* as a way to increase housing diversity and provide a wider range of more equitable housing choices.

Planning and Zoning Commission Staff Report

FUTURE PLACETYPES MAP:

Planning and Zoning Commission Staff Report

STAFF COMMENTS:

1. The Springfield LCRA considered the Redevelopment Plan on April 1, 2025. By a vote of 3 to 0, the Authority approved a resolution recommending approval and directing Staff to submit the Plan to the Planning and Zoning Commission for review and recommendations as to its conformity to the Comprehensive Plan, prior to forwarding its recommendations to the City Council.
2. Staff finds the Redevelopment Plan for the Hampton-Florence Redevelopment Area conforms with the *Forward SGF Comprehensive Plan*.
3. The Redevelopment Plan will enable the applicant to request partial real property tax abatement pursuant to the LCRA Law. Partial real property tax abatement pursuant to the LCRA Law is an economic development incentive used to encourage redevelopment of blighted areas. The Land Clearance for Redevelopment Authority may authorize partial real property tax abatement for redevelopment projects that conform with the Redevelopment Plan and comply with the Zoning Ordinance and all applicable codes and regulations. Real property tax abatement is based on 100% of the assessed value of qualified new construction or rehabilitation for 10 years.

Blight Report

I. GENERAL DESCRIPTION

To encourage rehabilitation and development in “blighted areas”, the Land Clearance for Redevelopment Authority Law (LCRA Law), as set forth in sections 99.300 through 99.660 of the Missouri Revised Statutes, defines “blight” and intends to foster cooperation between public and private entities to improve these areas.

The LCRA describes “blighted area” as follows (Section 99.320 and 99.805 of the Missouri Revised Statutes ¹):

“Blighted area”, an “area which, by reason of the predominance of insanitary or unsafe conditions, deterioration of site improvements, or the existence of conditions which endanger life or property by fire and other causes, or any combination of such factors, retards the provision of housing accommodations or constitutes an economic or social liability or a menace to the public health, safety, or welfare in its present condition and use.”

Missouri Courts have found that when an area meets one or more of the first three factors above that lead to any of the next three conditions in the second half of the definition, an area may be deemed “blighted”.

The purpose of the Blight Report is to demonstrate that the described properties (Redevelopment Area), in its present condition and use, show a predominance of:

- (1) insanitary or unsafe conditions,**
- (2) deterioration of site improvements or,**
- (3) the existence of conditions which endanger life or property by fire and other causes, or any combination of such factors**

Which leads to:

- (a) Retardation of the provision of housing accommodations or**
- (b) constitutes an economic and social liability or**
- (c) is a menace to public health, safety, morals, or welfare.**

¹ See MO, Rev. Stat. 99.320 (3) and 99.805 (2)

II. INTRODUCTION

The Blight Report for the Hampton—Florence Redevelopment Area (this “Blight Report”) is made for the purpose of documenting the blighted conditions affecting the proposed Redevelopment Area (as hereinafter defined). This Blight Report demonstrates (i) that the Redevelopment Area is a “blighted area” under the Missouri Revised Statutes, Sections 99.320 and 99.805 due to it being an area which, “by reason of the predominance of insanitary or unsafe conditions, deterioration of site improvements, or the existence of conditions which endanger life or property by fire and other causes, or any combination of such factors, retards the provision of housing accommodations or constitutes an economic or social liability or a menace to the public health, safety, or welfare in its present condition and use.”² Additional supporting photographic evidence of blight is attached hereto as Exhibit G.

Furthermore, the Redevelopment Area is located within the Jordan Valley Park (JVP) Tax Increment Financing (TIF) Area³, which the City Council declared a blighted area pursuant to the TIF Act in 2000 by Special Ordinance 24114. Although the Redevelopment Area is already located within a blighted area, it must be declared a blighted area pursuant to the LCRA Law.

The Redevelopment Area is in a state of severe blight, posing a direct threat to public health and safety. These ongoing conditions also have significant economic consequences, as blighted properties deter investment, reduce property values, and hinder the ability to generate reasonable tax revenue. Vacant and deteriorating buildings create an environment conducive to crime, including vandalism, illegal drug activity, and squatting, making it even more difficult to attract businesses or new residents to the area. Without redevelopment, this cycle of decay continues, placing a greater financial burden on the city while preventing the community from realizing its full economic potential. Addressing these blighted conditions is not just a matter of revitalization—it is essential to restoring safety, stability, and long-term economic viability to the area.

III. REDEVELOPMENT AREA

The Redevelopment Area is comprised of six parcels, which totals approximately 1.327 acres of real property located at 301, 307, 311, 315, 323, 327 South Florence Avenue, 306, 328 South Hampton Avenue, and 1100, 1104 East McDaniel Avenue, in the City of Springfield, Missouri (the “Redevelopment Area”). A map identifying the Redevelopment Area is attached hereto and incorporated herein as Exhibit “A”⁴ and the Redevelopment Area is legally described on Exhibit “C”⁵ attached hereto and incorporated herein.

The Redevelopment Area is located between South Hampton Avenue, and South Florence Avenue, and South of East McDaniel Avenue, and North of East Walnut Street.

² See MO, Rev. Stat. 99.320 (3) and 99.805 (2)

³ Exhibit B: Map of Redevelopment Area; Map of Jordan Valley Park TIF Blighted Area

⁴ Exhibit A: Map of Redevelopment Area; Zoning Map

⁵ Exhibit C: Legal Descriptions of Redevelopment Area

The area consists of the following three project areas that will be redeveloped as phases. All properties are zoned R-HD, High-density Multi-family Residential District.

Soflo Project Area

Located at 315, 323, 327 South Florence Avenue & 328 South Hampton Avenue ⁶

The Developer (Soflo, LLC) purchased the properties at 315, 323, 327 South Florence & 328 South Hampton over the year(s) of 2023-2024. There was a total of four structures on the three parcels of land, approximately ranging in age from the 1920's to the 1960's. Two were single family structures and two were multifamily structures (one non permitted duplex and one triplex). In 2024, these structures were demolished for safety reasons after the city determined them to be a life & safety issue. The developer intends to transform the land in accordance with the Redevelopment Plan and the project has been permitted and is under construction.

Hampton Suites Project Area

Located at 307, 311 South Florence Avenue & 306 South Hampton Avenue & 1100, 1104 East McDaniel Avenue ⁷

The Developer (Hampton Suites, LLC) contracted the purchase of the property at 307, 311 South Florence Avenue & 306 South Hampton Avenue & 1100-1104 East McDaniel Avenue. There are a total of seven structures on the four parcels of land, approximately ranging in age from the 1900's to the 1940's, which consist of five single family structures, and two garages. These properties are to be vacant in or before end of May, as any remaining tenants will not be releases.

Flo 301 Project Area

Located at 301 South Florence Avenue ⁸

The owner (Maclachlan Properties, LLC) purchased the property in 1995, according to the county assessors, and the dwelling unit was renovated in the 1990's, nearly thirty years ago. The property has been vacant intermittently over the past five years.

IV. EVIDENCE IN SUPPORT OF BLIGHT

Several properties within the Redevelopment Area, are quickly nearing the end of their economic life, which is of comparable age and is substantially similar condition to many of the blighted properties within these adjacent areas.

⁶ Exhibit A: Map of Redevelopment Area; Multi Projects Map

⁷ Exhibit A: Map of Redevelopment Area; Multi Projects Map

⁸ Exhibit A: Map of Redevelopment Area; Multi Projects Map

The key factors evidencing the Redevelopment Area as a "blighted area" under section 99.320(3) of the Missouri Revised Statutes are discussed in detail below. Photographs demonstrating some of these factors are included in Exhibit "G"⁹.

A. INSANITARY OR UNSAFE CONDITIONS

When evaluating insanitary conditions in an area, it is essential to consider a combination of factors that contribute to public health and safety risks. According to Chapter 99, an "insanitary area" is characterized by a predominance of buildings and improvements that suffer from dilapidation, deterioration, age, or obsolescence. These conditions can lead to economic and social liabilities, ultimately harming public health, safety, and overall welfare.¹⁰

The properties in this area have been a consistent hotspot for criminal activity, with over thirty reported incidents involving the Springfield Police Department over the past decade. These crimes range from vehicle theft and felony burglary to violent offenses such as assaults causing bodily harm.¹¹ The frequency and severity of these incidents highlight the ongoing safety concerns for residents, visitors, and law enforcement alike. The lack of security and the deteriorating conditions of the properties make them an easy target for criminal activity, further perpetuating the cycle of blight and public endangerment.

Beyond property crimes like vandalism, trespassing, and robbery, more serious offenses, including firearm thefts from vehicles and home invasions, have taken place. The area has even seen reports of sexual assault, demonstrating the urgent need for intervention to restore safety and stability. As long as these properties remain neglected and unprotected, they will continue to attract criminal behavior, further diminishing the quality of life in the surrounding community. Redevelopment efforts are not just about improving aesthetics—they are crucial to addressing these ongoing safety concerns and preventing further crime.

Soflo Project Area

Located at 315, 323, 327 South Florence Avenue & 328 South Hampton Avenue

The property is currently in a partially constructed state and is entirely uninhabitable. In its present condition, it would not meet building code requirements, making it unsuitable for occupancy. The unfinished structures lack the necessary components to ensure safety, stability, and compliance with regulations. Without significant improvements and completion of construction, the site remains unfit for residential use.¹²

Beyond the structures themselves, the land, in its current state, is also non-compliant with current grading codes. Walkways are incomplete and lack the necessary handrails, creating potential safety hazards for pedestrians. Additionally, there are no designated parking spaces on-site, further complicating accessibility and usability. Without proper infrastructure in place, the property does not provide the essential amenities required for functional development.

Traffic egress has also not been addressed, making entry and exit from the site difficult and potentially

⁹ Exhibit G: Evidence in Support of Blight [Photos/Police Reports]

¹⁰ See MO, Rev. Stat. 99.320 (9)

¹¹ Exhibit G: Evidence in Support of Blight [Photos/Police Reports]

¹² Exhibit G: Evidence in Support of Blight [Photos/Police Reports]

unsafe. Without a completed traffic flow system, the property poses logistical challenges for future use. Overall, the combination of structural incompleteness, safety concerns, and lack of essential infrastructure renders the site unsuitable in its current condition, requiring significant improvements before it can be deemed viable for occupancy or use.

The developer has faced repeated incidents of vandalism and theft, severely impacting the project's progress and security. Electrical wires have been cut, windows have been shattered, and valuable construction materials have been stolen, further delaying. Law enforcement has been called multiple times in response to these disturbances, highlighting the ongoing vandalism and criminal problems in this area. These repeated acts of trespassing and destruction not only create financial setbacks but also contribute to an unsafe environment, making it difficult to move forward with construction.

Hampton Suites Project Area

Located at 307, 311 South Florence Avenue & 306 South Hampton Avenue & 1100, 1104 East McDaniel Avenue

The property is in a severe state of disrepair, with structural, environmental, and health hazards throughout. The garage is unsafe for entry due to extensive water damage, which has led to mildew, fungus, and potential mold growth on floors, walls, doors, and cabinets. Saturated subfloors have weakened the structural integrity of the building, making it dangerous to walk through. Additionally, the foundation is failing, as it was built directly on dirt without proper footings, further compromising the stability of the structure. Windows have been broken out by vagrants and hastily covered, leaving the property exposed to the elements and unauthorized access.

The electrical system is outdated and hazardous, with melted wiring and old, unsafe fuse boxes posing a major fire risk. The HVAC system is equally problematic, featuring asbestos-lined ductwork that could be dangerous if disturbed. The basement is improperly ventilated, worsening moisture-related issues, while the siding and soffit are falling off the eaves, with asbestos-containing materials present on the exterior.¹³

Sewer problems add another layer of concern, with broken lines causing human waste to back up into basements. The sewer laterals cross property lines, with some homes situated directly over their neighbors' sewer lines, creating further complications. Outside, the property continues to deteriorate, with rotting window trim, chipping lead-based paint, and stone walls collapsing into the public sidewalk, creating additional hazards. The deteriorated bath areas, combined with excessive moisture, have fostered an environment for mold and bacteria, further making the property unsafe and unlivable.

B. DETERIORATION OF SITE IMPROVEMENTS

Hampton Suites Project Area

Located at 307, 311 South Florence Avenue & 306 South Hampton Avenue & 1100, 1104 East McDaniel Avenue

These properties exhibit significant structural and maintenance issues that compromise both safety and habitability. The porches are sagging, indicating deterioration, while the exterior door jambs are

¹³ Exhibit G: Evidence in Support of Blight [Photos/Police Reports]

rotting, further weakening the integrity of the entryways. Many windows are in a state of disrepair, with multiple broken panes contributing to both security concerns and energy inefficiency. Additionally, the foundation is failing, on several of these houses, due to subpar construction on dirt without proper footings, undermining the overall stability of the structure.¹⁴

The exterior condition is equally concerning, with rotting window framing and chipping paint evident throughout. Given that both structures were built before 1978, there is a high likelihood that the paint contains lead, posing a health hazard where it is deteriorating and flaking. The fascia has exposed raw wood, further accelerating the risk of weather damage, while the siding and front porch railings show visible signs of chipping paint and neglect. The flooring throughout the properties, are sagging, indicating underlying structural issues. In the basement, improper crawl space ventilation exacerbates moisture-related problems, further threatening the foundation's stability. The garage at 306 South Hampton Avenue is in a severe state of deterioration, with its roof, walls, and door collapsing. Electrical safety is another major concern, with exposed wiring throughout the living areas, and with original outdated fuse panels. All of these properties contain different types and ages of wiring that are not up to code, predating modern licensing requirements, creating a fire hazard. The overall state of disrepair makes the property not only structurally unsound but also a potential safety risk to its occupants.¹⁵

Flo 301 Project Area

Located at 301 South Florence Avenue

The property exhibits hazardous structural issues. The porch lacks railing, creating a dangerous situation for anyone using the space. Additionally, the porch joists are rotting, due to water exposure, compromising the structural integrity of the entire area and increasing the likelihood of collapse. The foundation is being compromised by a tree growing directly into the structure. This intrusion threatens the stability of the home, potentially causing cracks, shifting, or long-term foundation failure. Further exacerbating the issues, the gutters are deteriorating and falling off, preventing proper drainage and increasing the risk of water damage. Without functional gutters, rainwater can intrude behind siding and cause severe accelerating rot to the structure and mold growth, and further structural degradation.¹⁶

C. EXISTANCE OF CONDITIONS WHICH ENDANGER LIFE OR PROPERTY BY FIRE AND OTHER CAUSES

Soflo Project Area

Located at 315, 323, 327 South Florence Avenue & 328 South Hampton Avenue

Unfinished new construction projects can pose serious risks to a community, creating both safety hazards and inviting unwanted criminal activity. With exposed electrical wiring, large debris, and unused materials scattered around, these sites become dangerous for both residents and trespassers. Open wiring poses an electrocution risk, especially if left exposed to the elements, while loose debris and construction

¹⁴ Exhibit G: Evidence in Support of Blight [Photos/Police Reports]

¹⁵ Exhibit G: Evidence in Support of Blight [Photos/Police Reports]

¹⁶ Exhibit G: Evidence in Support of Blight [Photos/Police Reports]

materials can become hazards or even be used as projectiles in acts of vandalism. Without completion, due to financial hardship, sites that become abandoned, can quickly deteriorate, turning into breeding grounds for dangerous incidents.

Moreover, unfinished construction projects often attract vandalism, illegal dumping, and other forms of criminal harm. When a site remains vacant and unprotected for long periods, it becomes an easy target for graffiti, broken windows, and even theft of valuable materials such as copper wiring or lumber. These acts of destruction not only increase cleanup and repair costs but also bring down property values and create an overall sense of neglect within the neighborhood. Over time, a single abandoned site can contribute to a broader decline in the area, discouraging investment and making it harder to attract new businesses or homeowners.

Hampton Suites Project Area

Located at 307, 311 South Florence Avenue & 306 South Hampton Avenue & 1100, 1104 East McDaniel Avenue

The condition of the properties has deteriorated significantly, posing both structural and environmental hazards. The asbestos siding is cracked, potentially exposing the dangerous material and increasing the risk of airborne contamination. Lead-based paint is chipping away from window frames, creating a serious health concern, especially if the particles become airborne or settle where children or pets could be exposed. Wooden privacy fences are collapsing, no longer serving their purpose and adding to the overall state of disrepair. The steps leading from porches have rotted away, making entry and exit hazardous, while front porch railings have also decayed to the point of falling apart, further increasing safety risks.¹⁷

Structural integrity is a major concern, as the old stone foundations are failing due to years of water intrusion and neglect. Many of these homes were built directly on dirt without proper footings, making them particularly unstable over time. Gutters are falling off, preventing proper water drainage, and accelerating foundation damage. Overgrown trees loom dangerously over the houses, with the risk of falling limbs causing serious damage during storms. Cracked, broken, and uneven driveways create tripping hazards, adding another layer of risk to an already dangerous environment. Beneath the homes, the situation worsens, as skunks, raccoons, and other animals have taken up residence, further destabilizing the foundations. Additionally, broken sewer lines have led to raw sewage backing up into basements, creating not only a horrific sanitation issue but also a severe health hazard for anyone in the vicinity. The combination of these issues makes the properties not just unlivable but potentially actively dangerous to the school just north of this area.

V. IMPACT OF REDEVELOPMENT AREA'S BLIGHTED CONDITIONS

Under Missouri law, a redevelopment area must meet only one of three criteria to be deemed blighted: (1) it hinders the provision of housing accommodations, (2) it constitutes an economic or social liability, or (3) it poses a menace to public health, safety, morals, and welfare.¹⁸ The conditions within the

¹⁷ Exhibit G: Evidence in Support of Blight [Photos/Police Reports]

¹⁸ See MO, Rev. Stat. 99.320 (3) and 99.805 (2)

Redevelopment Area clearly meet all three of these criteria, as the site has become both an economic liability and a serious threat to public safety.

Vacant, dilapidated properties and unfinished-construction housing projects significantly hinder the provision of housing accommodations by reducing the available supply of safe and livable homes. When properties sit abandoned or remain in a state of disrepair, they become uninhabitable, removing potentially valuable housing stock from the market. These structurally unsound properties not only fail to meet modern safety and habitability standards but also discourage investment and redevelopment due to the high costs of rehabilitation. Additionally, incomplete construction projects that are left unfinished due to financial issues, permitting delays, or other setbacks contribute to the housing shortage by occupying land that could otherwise be developed into functional residences.

Beyond the immediate loss of available housing, these neglected and unfinished properties have a ripple effect on the surrounding community. They often attract crime, vandalism, and trespassing, making the area less desirable for prospective residents and developers. Their presence can also depress nearby property values, discouraging new housing developments and deterring potential homeowners or renters from moving into the area. Without intervention, these properties remain an obstacle to housing availability, limiting options for those in need while exacerbating the broader housing crisis by reducing the overall supply of safe homes. Addressing these issues through redevelopment and policy incentives is critical to ensuring that vacant and deteriorating properties do not continue to be a barrier to housing accommodations.

Several of these properties are in a state of severe deterioration, nearing the end of its economic life. The current taxable value is significantly below other newly developed neighboring properties, generating a minimal property tax liability of \$7,837.52¹⁹, in which the City receives \$891.23 per year. This is significantly lower than the potential revenue generated by surrounding redeveloped properties, underscoring the area's economic inefficiency and lost potential.

The hazardous and unsanitary conditions within the Redevelopment Area create a direct risk to public health and safety, particularly given the building's vacancy. These factors not only endanger citizens and surrounding properties but also encourage criminal activity such as trespassing, vandalism, and illegal occupation. Without comprehensive redevelopment, the area will continue to deteriorate, further decreasing property values and increasing financial strain on the city. The cost of remediation far exceeds the property's current value, making rehabilitation impractical without significant investment. If left unaddressed, the site will remain underutilized and unsafe, preventing the city from realizing its full economic potential while continuing to drain resources and deter growth.

Project	Address	CURRENT ASSESSMENT		CURRENT CITY ALLOCATION

2024 Tax Levy Analysis

¹⁹ See 2024 Tax Levy Analysis

VI. CONCLUSION

The Redevelopment Area is plagued by unsanitary and unsafe conditions, significant deterioration of site improvements, and numerous hazards that pose a direct threat to life and property, including fire risks and structural instability. These factors have rendered the area not only unlivable but also a growing economic and social liability. In its current state, it undermines public health, safety, and overall community welfare. The Redevelopment Area qualifies as a "blighted area" as defined in section 99.805(1)²⁰ of the Missouri Revised Statutes. The ongoing neglect and hazardous conditions continue to hinder redevelopment efforts, discouraging investment and further contributing to the area's decline.

Given these circumstances, the City of Springfield should take action under the LCRA Law to officially designate the Redevelopment Area as a blighted area. Doing so would enable the city to implement necessary redevelopment strategies, facilitating rehabilitation efforts and attracting investment to revitalize this deteriorating portion of the city. By leveraging available redevelopment tools, the city can work to restore the area's safety,

²⁰ See MO, Rev. Stat. 99.805 (1)

REDEVELOPMENT PLAN

FOR THE HAMPTON-FLORENCE REDEVELOPMENT AREA

I. INTRODUCTION

Soflo, LLC (the "Developer") has prepared the following redevelopment plan for the redevelopment of approximately 1.327 acres generally located between South Hampton Avenue, and South Florence Avenue, and South of East McDaniel Avenue, and North of East Walnut Street. The redevelopment of this area will take place in multiple phases, beginning with the Soflo Project Area, followed by the Hampton Suites Project Area and the Flo 301 Project Area. Each of these initiatives is outlined in detail within the Redevelopment Plan, with a focus on revitalizing underutilized properties and enhancing the neighborhood's housing options. By strategically planning these projects, the redevelopment aims to create a cohesive and well-integrated community that aligns with the area's needs and growth objectives.

The Soflo Project Area involves redeveloping three previously separate parcels, now combined into one site located at 315, 323, and 327 South Florence Avenue and 328 South Hampton Avenue in Springfield, Missouri, for the construction of a fourteen-unit residential housing development. This project is a crucial step in transforming the area by increasing housing availability, improving infrastructure, and contributing to the long-term revitalization of the neighborhood. Further details on the Soflo Project's design, impact, and implementation can be found throughout this Redevelopment Plan. Additionally, one of the purposes of this plan is enable to utilize partial real property tax abatement pursuant to the Land Clearance for Redevelopment Authority Law to facilitate redevelopment.²¹

The Redevelopment Area offers exceptional accessibility, with bike-friendly infrastructure and dedicated parking to encourage alternative transportation options. Residents will benefit from a highly walkable environment, with downtown businesses, entertainment venues, and key amenities just steps away. The development is conveniently situated near the Springfield Cardinals minor league baseball stadium, local supermarkets, restaurants, and Missouri State University, making it an ideal location for students, professionals, and families alike. Additionally, nearby bus stops, medical facilities, and employment centers provide easy access to essential services, further enhancing the appeal of this vibrant, connected community.

Soflo Project Area

Located at 315, 323, 327 South Florence Avenue & 328 South Hampton Avenue

This project is multi-family residential, housing development which will bring new housing to the area, enhancing the community with modern, high-quality living spaces while maintaining the character of the neighborhood. Designed to complement the surrounding neighborhood, the development will feature architecture and aesthetics in line with the existing housing stock, ensuring a seamless blend with the historic neighborhood to the south on Walnut Street. The new buildings will be of similar height and scale to the surrounding structures, preserving the visual harmony of the area while providing much-needed residential options. This project is in its early stages and remains far from completion.

²¹ Exhibit A: Map of Redevelopment Area; Multi Projects Map

Other projects that will be developed in the future and after the Soflo Project Area, (the “Future Projects”) are generally described as follows:

Hampton Suites Project Area

Located at 307, 311 South Florence Avenue & 306 South Hampton Avenue & 1100, 1104 East McDaniel Avenue

This project is multi-family residential housing development, designed to enhance the neighborhood while maintaining the character and scale of the surrounding area. The development will be thoughtfully integrated into the community, with architectural aesthetics, style, and design, that complement the existing properties and the Soflo redevelopment project. The height and size of the structures will align with those in the historic Walnut Street district to the south, ensuring a seamless transition between old and new while preserving the neighborhood’s charm. Additionally, the project will prioritize bike accessibility and ample parking, encouraging alternative transportation options and reducing congestion in the area. This project is estimated to begin in fall of 2025.

Flo 301 Project Area

Located at 301 South Florence Avenue

This project is multi-family residential housing development, which will provide modern living spaces while maintaining the character and scale of the surrounding neighborhood. Designed with a focus on accessibility and sustainability, the development will include bike-friendly infrastructure and dedicated parking, encouraging alternative transportation options. The architectural style, and design, will complement the existing properties, and the Soflo and Hampton Suites Redevelopment projects, ensuring that the new residences blend seamlessly with the surrounding community. By maintaining a similar height and size to the historic neighborhood to the south on Walnut Street, the project will preserve the area’s charm while introducing much-needed housing options. The sellers are not currently willing to sell, but we fully intend to purchase and develop the land once they decide to do so. As a result, the timeline for starting the project remains uncertain and dependent on when the property becomes available. While we are committed to moving forward with development, we must wait until the sellers are ready to proceed, making it difficult to establish a definitive start date at this time.

II. DESCRIPTION OF THE PROJECT

A) BOUNDARIES OF THE REDEVELOPMENT AREA

The Redevelopment Area is generally bounded by E McDaniel St to the north, an alley to the south, S Florence Ave to the east, and S Hampton Ave to the west. It consists of six parcels, totaling approximately 1.327 acres of real property, addressed as 301, 307, 311, 315, 323, and 327 S Florence Ave; 306 and 328 S Hampton Ave; and 1100 and 1104 E McDaniel Ave. A map identifying the Redevelopment Area is attached as Exhibit “A”²² and incorporated herein. A legal description of the

²² Exhibit A: Map of Redevelopment Area; Multi Projects Map

Redevelopment Area and is attached as Exhibit “C”²³ and incorporated herein. All properties are zoned R-HD, High-density Multi-family Residential District.

B) BOUNDARIES OF THE SOFLO PROJECT AREA

The Soflo Project Area contains a single, recently combined parcel. They are addressed as 315, 323, 327 South Florence Avenue & 328 South Hampton Avenue in Springfield, Missouri.²⁴ The Soflo Project Area consists of approximately .6638 acres (approx. 28,900 square feet). A map identifying the Soflo Project Area is attached hereto as Exhibit A²⁵ and is legally described on Exhibit D²⁶ attached hereto.

The Developer (Soflo, LLC) purchased the properties over the year(s) of 2023-2024. There was a total of four structures on the three parcels of land, approximately ranging in age from the 1920’s to the 1960’s. Two were single family structures and two were multifamily structures [one non permitted duplex and one triplex]. In 2024, these structures were demolished for safety reasons after the city has determined it to be a life & safety issue. The property is currently in a partially constructed state and is entirely uninhabitable. In its present condition, it would not meet building code requirements, making it unsuitable for occupancy. Without significant improvements and completion of construction, the site remains unfit for residential use.²⁷ The developer intends to complete the project, pending an approval of partial real tax abatement, in accordance with the Redevelopment Plan.²⁸

Furthermore, the developer dedicated approximately 1,125 square feet of land (7.5 feet by 150 feet) along the east side of South Hampton Avenue to the City of Springfield as additional right-of-way to meet roadway requirements. This ensures compliance with city regulations and allows for proper infrastructure planning. The right-of-way acquisition was handled by the City of Springfield’s Traffic Department, Zoning Department, and Right-of-Way Department, ensuring that all necessary approvals and adjustments were made before redevelopment proceeded.

C) BOUNDARIES OF THE HAMPTON SUITES PROJECT AREA

The Hampton Suites Project Area contains four (4) parcels of land, which will be combined into one parcel. They are addressed as 307, 311 South Florence Avenue & 306 South Hampton Avenue & 1100, 1104 East McDaniel Avenue in Springfield, Missouri. The Hampton Suites Project Area consists of approximately .5389 acres (approx. 23,400 square feet). A map identifying the Hampton Suites Project Area is attached hereto as Exhibit A²⁹ and is legally described on Exhibit E³⁰ attached hereto.

There are a total of five single family dwellings, approximately ranging in age from the 1900’s to the 1940’s, and three accessory structures. These properties are to be vacant in or before end of May, as any remaining tenants will not be releases.

²³ Exhibit C: Legal Description of Redevelopment Area

²⁴ Exhibit H: Preliminary Site Plans and Renderings: Soflo Project Area

²⁵ Exhibit A: Map of Redevelopment Area; Multi Projects Map

²⁶ Exhibit D: Legal Description of Soflo Project Area

²⁷ Exhibit G: Evidence in Support of Blight [Photos/Police Reports]

²⁸ See “Redevelopment Plan; D) Execution of the Project; c) Financing”

²⁹ Exhibit A: Map of Redevelopment Area; Multi Projects Map

³⁰ Exhibit E: Legal Description of Hampton Suites Project Area

D) BOUNDARIES OF THE FLO 301 PROJECT AREA

The Flo 301 Project Area contains a single parcel of land. This is addressed as 301 South Florence Avenue in Springfield, Missouri. The Flo 301 Project Area consists of approximately .124 acres (approx. 5,400 square feet). A map identifying the Flo 301 Project Area is attached hereto as Exhibit A³¹ and is legally described on Exhibit F³² attached hereto.

This property was purchased by current owners in 1995 and has once been renovated in the 1990's, nearly thirty years ago. The property has been vacant intermittently over the past five years.

E) NEED FOR REDEVELOPMENT

The Developer is currently seeking a blight designation for the Redevelopment Area concurrently with the submission of this Redevelopment Plan. The implementation of this Redevelopment Plan will eliminate the blighted conditions described in the Blight Report and briefly discussed here. The Redevelopment Plan will permit projects like the Soflo Project, Hampton Suites Project, and Flo 301 Project to develop the necessary utility infrastructure currently lacking to support significant redevelopment. It will also permit the removal of vacant, deteriorated, and dangerous buildings while simultaneously cleaning the Redevelopment Area more generally of structurally failing housing, glass, overgrowth, trash, etc. The economic and social liability of the Redevelopment Area caused by the significant deterioration of physical conditions, lack of development, and reduced commercial and residential traffic will be replaced with high quality and attractive multi-family residential projects. The Redevelopment Area is a prime opportunity to create a desirable living environment for residents and promoting increased traffic and economic opportunities within the mixed-use area, and just north of the iconic Historic Walnut Street and Missouri State University and just South of the minor league Springfield Cardinals baseball stadium, while increasing the taxable revenues to the City of Springfield.

F) REDEVELOPMENT PLAN OBJECTIVES AND STRATEGIES

a) GOALS OF THE SPRINGFIELD- FORWARD SGF COMPREHENSIVE PLAN

The Redevelopment Plan focuses on the redevelopment of a blighted area near downtown for low-density multi-family housing, with an emphasis on "missing middle" options like duplexes, townhomes, and multiplexes, which strongly aligns with the Forward SGF Comprehensive Plan.

Mixed Use Placetype Compatibility

The Mixed Use placetype is designed to support a wide variety of uses from residential, commercial, artisan, and even light industrial. It promotes adaptive reuse of existing buildings and aims to create lively, walkable areas. Adding low-density multi-family homes here fits seamlessly, supporting a diverse mix of uses and contributing to a more vibrant neighborhood.³³

³¹ Exhibit A: Map of Redevelopment Area; Multi Projects Map

³² Exhibit F: Legal Description of Flo 301 Project Area

³³ FORWARD SGF Comprehensive Plan, Ch 5 Land Use & Development, page 44

Supporting Blight Redevelopment

Forward SGF is clear, revitalizing aging neighborhoods and disinvested corridors is a major priority. Rebuilding in a blighted area helps meet that goal, breathing life back into underused properties. This aligns with the city's land bank efforts focused on turning vacant lots into productive spaces that strengthen the surrounding community.³⁴

Missing Middle Housing & Neighborhood Diversity

The plan directly supports Forward SGF's push for housing diversity, especially the "missing middle" housing types that fall between single-family homes and large apartment complexes. Adding options like duplexes and townhomes helps meet the needs of young professionals, new families, and seniors while still blending into the neighborhood's character.³⁵

Design & Context Sensitivity

More than anything, Forward SGF emphasizes good design. It's not just about what gets built but how it fits. Projects should match the scale, style, and feel of the neighborhood, especially when transitioning between different land uses. This well-designed multi-family project seamlessly complements the surrounding area.³⁶

Creating Complete Neighborhoods

This development also supports the goal of creating complete neighborhoods, places where people have diverse housing choices, good connectivity, and easy access to shops, services, and amenities. Adding missing middle housing near downtown boosts walkability and livability.³⁷

Downtown Proximity & Economic Impact

Being close to downtown is another plus. More residents mean more foot traffic, support for local businesses, and a stronger urban core, exactly what Forward SGF envisions. Plus, the Mixed Use area naturally serves as a transition zone from the bustling downtown to quieter residential neighborhoods.³⁸

Chapter 5 (Land Use & Development)

The plan to redevelop a blighted area near downtown with low-density multi-family housing, focused on "missing middle" options like duplexes and townhomes, closely aligns with the Forward SGF Comprehensive Plan. Situated within the Mixed Use placetype, the project supports the city's vision of creating vibrant, walkable neighborhoods that blend residential, commercial, and light industrial uses. Adding this housing type promotes connectivity, enhances livability, and encourages adaptive reuse of underutilized spaces.

³⁴ FORWARD SGF Comprehensive Plan, Ch 7 Housing & Neighborhoods, page 69

³⁵ FORWARD SGF Comprehensive Plan, Ch 7 Housing & Neighborhoods, page 72

³⁶ FORWARD SGF Comprehensive Plan, Ch 5 Housing & Neighborhoods, page 44

³⁷ FORWARD SGF Comprehensive Plan, Ch 7 Housing & Neighborhoods, page 69

³⁸ FORWARD SGF Comprehensive Plan, Ch 7 Housing & Neighborhoods, page 70

This redevelopment also advances Forward SGF’s goal of revitalizing aging neighborhoods and corridors. By transforming a blighted site into productive use, the project aligns with land bank strategies aimed at stabilizing communities and attracting reinvestment. Forward SGF highlights the importance of housing diversity, and missing middle options offer much-needed choices for families, young professionals, and seniors while preserving neighborhood character.

Equally important is the plan’s focus on thoughtful design and context. The development is expected to complement the surrounding area’s scale and style, supporting the creation of complete neighborhoods with access to housing, jobs, and amenities. Its downtown proximity strengthens the urban core by boosting foot traffic and supporting local businesses. This effort aligns with Chapter 5’s emphasis on infill and mixed-use.³⁹

Chapter 7 (Housing & Neighborhoods):

Chapter 7 of the Forward SGF Plan focuses on creating complete neighborhoods with a range of diverse housing options, strong connectivity, and access to goods, services, and community facilities. Targeting “missing middle” housing—such as duplexes, townhomes, and multiplexes—directly supports this goal by offering alternatives between single-family homes and larger apartment complexes. These housing types help expand choices for a variety of household types, including young professionals, families, and seniors, while promoting equity and inclusivity.

Revitalizing disinvested neighborhoods is another key objective. Redeveloping a blighted area near downtown supports this by encouraging reinvestment and stabilizing property values. Initiatives like **Restore SGF** further promote neighborhood renewal and align with the plan’s strategy to transform underutilized lots or aging properties into productive uses that fit the scale and character of surrounding neighborhoods.

The plan also emphasizes thoughtful design, prioritizing compatibility and context over strict land-use labels. While this project introduces low-density multi-family housing, its focus on quality design and neighborhood character aligns with Forward SGF’s place-based approach. Ultimately, redeveloping this site supports the broader vision of building vibrant, complete neighborhoods that blend residential uses within the Mixed Use placetype, strengthen community connections, and maximize reinvestment opportunities.

The planned low-density multi-family redevelopment of a blighted area near downtown aligns with several priorities of the Forward SGF Comprehensive Plan. Located within the Mixed Use placetype, this project supports the city’s vision of integrating residential, commercial, and neighborhood-serving businesses to create vibrant, walkable spaces. Multifamily uses, especially along reinvestment corridors or as a transition to lower-density areas, are considered compatible within Mixed Use zones, making this location ideal for infill housing.

Revitalizing this blighted site also advances Forward SGF’s focus on reinvestment in underutilized or vacant properties, particularly through initiatives like the Springfield Land Bank. Transforming an abandoned area into productive housing supports neighborhood stabilization and strengthens older

³⁹ FORWARD SGF Comprehensive Plan, Ch 7 Housing & Neighborhoods, page 69

communities facing disinvestment. By promoting redevelopment in these areas, the plan aims to revitalize established neighborhoods and encourage reinvestment in aging corridors.

Targeting “missing middle” housing directly aligns with the plan’s goal of increasing housing diversity and providing more equitable choices. Housing types like duplexes, townhomes, and multiplexes help fill the gap between single-family homes and large apartment complexes, offering options for a variety of households while preserving neighborhood character. The project’s proximity to downtown further enhances its impact by supporting the urban core, boosting foot traffic, and complementing the city’s place-based approach to creating complete, connected, and vibrant neighborhoods.⁴⁰

In Conclusion

This redevelopment aligns with Forward SGF’s vision—revitalizing underused areas, increasing housing diversity, enhancing downtown vibrancy, and creating walkable, complete neighborhoods. With quality design and thoughtful placement, it supports the city’s long-term goals while breathing new life into a struggling area.

b) CURRENT CONDITIONS OF REDEVELOPMENT AREA

The Redevelopment Area suffers from significant physical deterioration, unsafe and unsanitary conditions, and structural issues that pose potential threats to life and property, as detailed in the Blight Report. Vacant and deteriorated structures, failing infrastructure, and environmental hazards have exacerbated the blight, discouraging private investment and hindering community growth. Substantial capital investment is necessary to rehabilitate and revitalize the area, transforming it into a functional and desirable space. Additionally, the Redevelopment Area is underutilized, failing to generate tax revenue at its full potential and potentially suppressing the economic vitality of the surrounding neighborhoods. Strategic redevelopment of the area will address these challenges, unlock its potential, and contribute to the local economy while improving the overall quality of life.

III. REDEVELOPMENT PLAN REQUIREMENTS

a) Overview

The Redevelopment Plan focuses on transforming the area into a vibrant residential multifamily neighborhood community, carefully designed to complement the existing style, size, and aesthetics of the surrounding neighborhoods. By aligning new developments with the architectural character of the area, the plan aims to seamlessly integrate modern housing while preserving the community's visual and historical appeal. Beyond its immediate impact, the redevelopment is expected to stimulate further private investment in the surrounding areas, creating a ripple effect of revitalization and economic growth. As new housing projects take shape, the overall safety of the neighborhood—both real and perceived—will improve, thanks to increased activity, investment, and a stronger sense of community engagement.

A key component of this redevelopment initiative is the encouragement of much-needed residential revitalization through partial real property tax abatement. By providing financial incentives, the plan seeks to attract developers and property owners to invest in new housing opportunities, ultimately increasing the area's housing supply and economic vitality. This strategic approach not only fosters growth within the redevelopment area but also supports long-term sustainability by ensuring that new projects are both economically viable and beneficial to the broader community. Through this initiative, the city aims to create a thriving, safe, and well-integrated residential district that enhances the quality of life for current and future residents.

The developer respectfully requests that the Redevelopment Plan be designated as a Multi-Project Redevelopment Plan based on factors outlined for Council consideration, including the size of the redevelopment area, the need for land assemblage, the phased nature of potential redevelopment projects, multiple property owners within the area, and the fact that the plan was initiated to facilitate redevelopment.⁴³

b) Design Guidelines

All projects under this Redevelopment Plan should prioritize the use of high-quality materials and thoughtful design to enhance both aesthetics and functionality. The development should be planned to

⁴³ Springfield, MO Code of Ordinances Chapter 40- Community Development ARTICLE II- Workable Program, Sec. 40-19 (d)-Multi-project redevelopment plans

encourage pedestrian activity, creating a more walkable and inviting environment for residents and visitors alike. By incorporating well-designed pathways, streetscapes, and building facades, the redevelopment will contribute to a cohesive and visually appealing neighborhood that aligns with the surrounding community's character.

Additionally, all publicly visible sides of buildings—whether viewed from adjacent properties or roadways—must maintain a consistent level of architectural quality and finish. This ensures that every aspect of the development presents a well-maintained and polished appearance, reinforcing a sense of pride and investment in the area. A commitment to high standards in design and construction will not only improve the overall aesthetic appeal but also support long-term property values and encourage further private investment in the community.

c) Land Use Plan

a) Former and Existing Land Use Plan

The Redevelopment Area currently contains multiple structures, in varying states of disrepair. Several of these dwellings are in process of being vacated. Additionally, some of the structures within the redevelopment area are in various stages of construction but remain incomplete. These unfinished buildings further contribute to the area's instability, as they lack the necessary infrastructure and safety measures to be utilized effectively. The presence of both severe disrepair and incomplete structures underscores the urgent need for redevelopment to revitalize the area, enhance its livability, and attract new investment that will transform it into a thriving residential community.⁴⁴

b) Proposed Land Use

Soflo Project Area

Located at 315, 323, 327 South Florence Avenue & 328 South Hampton Avenue

The proposed land use for this redevelopment project involves transforming approximately 0.6638 acres into a multi-family residential development featuring duplex-style housing on a single combined lot. The plan includes the construction of up to 14 dwelling units, with a mix of two-bedroom units and four-bedroom units, offering diverse housing options to accommodate different household sizes. This redevelopment project highlights support of Missing Middle housing and aligns with the area's existing zoning regulations and aims to enhance the residential appeal of the neighborhood while increasing the availability of quality housing. Attached renderings and elevations further illustrate the design and layout of the proposed redevelopment, demonstrating how it integrates with the surrounding community.

In addition to the residential component, the developer is committed to making public improvements to the alleyway running east and west, just south of the redevelopment site. This alleyway is a vital access route not only for this project but also for the adjoining properties located on East Walnut Street. Upgrading this infrastructure will enhance connectivity, improve safety, and support both the new

⁴⁴ Exhibit G: Evidence in Support of Blight [Photos/Police Reports]

development and existing properties. By investing in these improvements, the redevelopment will contribute to the broader revitalization of the area, fostering a more accessible and functional urban environment for residents and businesses alike. The redevelopment plans and elevations reflecting the proposed land use are attached as Exhibit “H” and incorporated herein.⁴⁵

Hampton Suites Project Area

Located at 307, 311 South Florence Avenue & 306 South Hampton Avenue & 1100, 1104 East McDaniel Avenue

The proposed redevelopment plan aims to transform approximately 0.5389 acres into a multi-family residential duplex community on a single combined lot. The developer plans to construct up to 12 dwelling units, offering a mix of two-bedroom and four-bedroom units, addressing a variety of housing needs within the community. These duplex-style homes contribute to the city’s initiative for Missing Middle Housing, which seeks to provide diverse and affordable housing options between single-family homes and large apartment complexes. By developing multi-family residences in a way that blends seamlessly with the existing neighborhood, this project helps meet the growing demand for quality, well-designed housing while maintaining a sense of community and accessibility.

In addition to residential development, the project includes a public improvement to the city sewer system, which the sewer main runs north and south just west of the redevelopment area. Under this plan, an additional sewer will be installed on Hampton Avenue and going east along McDaniel Street. Upgrading this infrastructure will not only benefit future residents of the duplexes but also improve overall sewer capacity and functionality for neighboring properties. The redevelopment will adhere to existing zoning regulations, ensuring compliance with city planning objectives while contributing to the area’s modernization and livability. Attached renderings and elevations provide a visual representation of the proposed land use, demonstrating the project’s alignment with both community needs and urban development goals. The redevelopment plans and elevations reflecting the proposed land use are attached as Exhibit “I” and incorporated herein.⁴⁶

Flo 301 Project Area

Located at 301 South Florence Avenue

The proposed redevelopment aims to transform 0.124 acres into a multi-family residential duplex, adding much-needed Missing Middle housing to the community. Upon purchase, this project will introduce two dwelling units, providing housing options suitable for a variety of household sizes. By developing this duplex within existing zoning regulations, the project aligns with the city’s goal of increasing housing density in a way that remains compatible with the surrounding neighborhood. The renderings and elevation plans illustrate how this development will integrate with the area, ensuring a balance between modern housing solutions and the existing community character. The redevelopment plans and elevations reflecting the proposed land use are attached as Exhibit “J” and incorporated herein.⁴⁷

⁴⁵ Exhibit H: Preliminary Site Plans and Renderings: Soflo Project Area

⁴⁶ Exhibit I: Preliminary Site Plans and Renderings: Hampton Suites Project Area

⁴⁷ Exhibit J: Preliminary Site Plans and Renderings: Flo 301 Project Area

Beyond providing new housing, this redevelopment contributes to community vitality by enhancing the availability of well-designed, efficient housing options that support a diverse and growing population. The introduction of a duplex-style residence encourages a more walkable, connected neighborhood, helping to sustain local businesses, schools, and public services. Additionally, Missing Middle housing plays a critical role in bridging the gap between single-family homes and larger apartment complexes, creating a more inclusive housing market that accommodates different income levels and lifestyles. This project will not only provide high-quality housing but also strengthen the local economy and contribute to a vibrant, sustainable neighborhood that fosters long-term growth and stability.

c) Existing and Proposed Zoning

The Redevelopment Area is zoned R-HD, High-density Multi-family Residential, district. No rezoning is anticipated to be required.⁴⁸

d) Regulations and Controls

Redevelopment of the Redevelopment Area shall be subject to all applicable Springfield, Missouri Codes and Ordinances.

IV. EXECUTION OF THE PROJECT

a) Execution

The Developer or its successors in intent will be responsible for executing the redevelopment of the Redevelopment Area in accordance with the Redevelopment Plan.

b) Land Acquisition

Soflo Project Area

Located at 315, 323, 327 South Florence Avenue & 328 South Hampton Avenue

Land acquisition is not required for this project, as all necessary parcels have already been secured and consolidated into a single lot. This streamlined approach eliminates the need for further property negotiations and allows the redevelopment to move forward efficiently, ensuring a cohesive and well-planned development.

Hampton Suites Project Area

Located at 307, 311 South Florence Avenue & 306 South Hampton Avenue & 1100, 1104 East McDaniel Avenue

⁴⁸ Exhibit A: Map of Redevelopment Area; Zoning Map

Land acquisition is a crucial step in this project, as securing the necessary parcels is essential for redevelopment. The developer has already established agreements to acquire all required properties, ensuring a smooth transition once the acquisitions are finalized. These agreements provide a clear path forward, allowing the project to proceed without delays related to property negotiations.

Once all parcels have been acquired, they will be consolidated into a single parcel to streamline development and maximize land use efficiency. This combination will facilitate cohesive planning, infrastructure improvements, and construction, ensuring the project aligns with the overall redevelopment vision. By assembling the parcels into one, the developer can optimize site design and create a more functional and well-integrated residential community.

Flo 301 Project Area

Located at 301 South Florence Avenue

Land acquisition is a necessary component of this project, as the developer must secure ownership of the property to move forward with redevelopment. At present, the developer is pursuing a first right of refusal agreement with the current owner, ensuring the opportunity to purchase the land when the owner decides to sell. This agreement provides a clear path for acquisition, allowing the project to proceed as planned once the property becomes available.

c) Financing

The Developer is using conventional financing to finance the project.

The financing and loan guidelines for this project are contingent upon a partial real property tax abatement, as the success of the redevelopment hinges on financial feasibility.

The developer respectfully requests that the Redevelopment Plan be designated as a Multi-Project Redevelopment Plan based on factors outlined for Council consideration, including the size of the redevelopment area, the need for land assemblage, the phased nature of potential redevelopment projects, multiple property owners within the area, and the fact that the plan was initiated to facilitate redevelopment. While the multi-project requirements do not mandate a formal “but-for” test, the reality remains that these projects—including all public improvements—cannot proceed without this critical incentive.⁴⁹ The revitalization of the neighborhood depends on the financial viability of these efforts, and without tax abatement, the cost of redevelopment would be prohibitive, leaving the area in a continued state of decline and disinvestment.

The tax abatement ensures that necessary improvements—such as upgraded infrastructure, streetscape enhancements, and site rehabilitation—are economically feasible, allowing for long-term reinvestment and sustainability. Without the abatement, the projects cannot meet the lender’s requirements, placing not only the Soflo Project at risk but also jeopardizing future projects, including the proposed Hampton Suites and Flo 301 projects. The but-for test, as defined by City Council, determines whether a redevelopment project would be financially unfeasible without tax abatement, and in this case, the answer is clear:

⁴⁹ Springfield, MO Code of Ordinances Chapter 40- Community Development ARTICLE II- Workable Program, Sec. 40-19 (d)-Multi-project redevelopment plans

without the incentive, redevelopment would not happen. The costs associated with demolition, infrastructure upgrades, and site preparation far exceed the financial return without support, making private investment alone insufficient to transform the neighborhood. The partial tax abatement is not simply a benefit but a necessity to bridge the financial gap and encourage investment that will revitalize the area, increase property values, and stimulate economic activity. Without it, the area will continue to suffer from blight, underutilization, and declining property conditions, hindering the city's broader redevelopment goals.

d) Disposition of Property

Soflo Project Area

Located at 315, 323, 327 South Florence Avenue & 328 South Hampton Avenue

The developer dedicated approximately 1,125 square feet of land (7.5 feet by 150 feet) along the east side of South Hampton Avenue to the City of Springfield as additional right-of-way to meet roadway requirements. This ensures compliance with city regulations and allows for proper infrastructure planning. The right-of-way acquisition was handled by the City of Springfield's Traffic Department, Zoning Department, and Right-of-Way Department, ensuring that all necessary approvals and adjustments were made before redevelopment proceeded.

Hampton Suites Project Area

Located at 307, 311 South Florence Avenue & 306 South Hampton Avenue & 1100, 1104 East McDaniel Avenue

Land disposition will be a necessary step in this project, as the City of Springfield requires an approximate 7.5-foot of land for right-of-way requirements, along Hampton Avenue, to be deeded to them before the lots can be combined. This ensures compliance with city regulations and allows for proper infrastructure planning. The right-of-way acquisition will be handled by the City of Springfield's Traffic Department, Zoning Department, and Right-of-Way Department, ensuring that all necessary approvals and adjustments are made before redevelopment proceeds.

No other land disposition will be required.

e) Plan for Relocation Assistance

The majority of these properties located within the Redevelopment Area are currently unoccupied, meaning relocation assistance will not be required for these vacant structures. Only one property, a single house within the Flo 301 Project Area, is presently occupied, and as a condition of its purchase, it must be vacated before the closing. This ensures a smooth transition for redevelopment without the need for tenant relocation support, allowing the project to move forward efficiently

f) Redevelopment Schedule and Estimated Dates of Completion

The Developer estimates that each state of the Project will be completed according to the following schedule:

Soflo Project Area

Located at 315, 323, 327 South Florence Avenue & 328 South Hampton Avenue

Completion of Acquisition of Parcels Summer 2024

Deed City of Springfield Additional Required R.O.W. Summer 2024

Combination of Parcels into one parcel Summer 2024

Construction Permitting Summer 2024

Site Work (Demolition) Fall 2024

Public Improvement Alleyway Completed Fall 2025 [but for a tax abatement: part of loan contingency]

Construction Completed Fall 2025 [but for a tax abatement: part of loan contingency]

Hampton Suites Project Area

Located at 307, 311 South Florence Avenue & 306 South Hampton Avenue & 1100, 1104 East McDaniel Avenue

Completion of Acquisition of Parcels Spring 2025

Deed City of Springfield Additional Required R.O.W. Spring 2025

Combination of Parcels into one parcel Spring 2025

Construction Permitting Fall 2025

Site Work (Demolition) Fall 2025

Public Improvement Sewer Extension Completed Fall 2025

Construction Completed Fall 2026

Flo 301 Project Area

Construction Permitting Tbd

Construction Completed Tbd

g) Taxation

The Developer or its successors in interest may apply to the Land Clearance for Redevelopment Authority for tax relief pursuant to Sections 99.700 to 99.715 of the Missouri Revised Statutes, 2000.

h) Covenants

“The special ordinance approving a multi-project redevelopment plan shall be effective for up to five years, after which the designation shall cease to be in effect and the redevelopment plan shall be void, unless the previous designation is extended by a subsequent resolution of council prior to the plan's expiration.”⁵⁰

The Redevelopment Plan will remain in effect for a period of five years from the date of final approval, after which it will automatically expire. During this timeframe, the plan will guide the redevelopment and use of the real property within the designated Redevelopment Area, ensuring that all improvements and developments align with its objectives. This long-term framework is intended to provide structure and consistency in revitalizing the area while fostering investment and economic growth.

Throughout this five period, the Developer and any future successors in interest must adhere to the guidelines set forth in the Redevelopment Plan to take advantage of the tax relief benefits provided under Sections 99.700 to 99.715 of the Missouri Revised Statutes, 2000. Compliance with these regulations will be necessary for those seeking financial incentives, reinforcing the plan’s role in shaping the redevelopment efforts.

V. OTHER PROVISIONS

a) Compliance with State and Local Law

All redevelopment activities shall comply with the Springfield Zoning Ordinance and all other applicable state and local laws.

b) Compliance with Workable Program

a. Multi-Project Redevelopment Plans

Pursuant to Section 40-19 of Article II of Chapter 40 of the Springfield City Code (the “Code”)⁵¹, where

“(a) The purpose of this section is to allow flexibility regarding the applicability of this article, to ensure that tax abatement is available for future redevelopment of an area of the city which

⁵⁰ Springfield, MO Code of Ordinances Chapter 40- Community Development ARTICLE II- Workable Program, Sec. 40-19 (e)-Multi-project redevelopment plans

⁵¹ Springfield, MO Code of Ordinances Chapter 40- Community Development ARTICLE II- Workable Program, Sec. 40-19 (e)-Multi-project redevelopment plans

contains widespread evidence of blighting factors, where an overall plan for redevelopment is required to address said blighting factors.

(b) City council, by resolution, shall have the authority to designate and declare that a redevelopment plan qualifies as a multi-project redevelopment plan.

(c) For purposes of this section 40-19, factors that council shall consider when designating a redevelopment plan as a multi-project redevelopment plan shall include:

- (1) Size of the redevelopment area;*
- (2) If land assemblage is required;*
- (3) Whether the entire scope of the potential redevelopment projects within the redevelopment area is known at the time of application;*
- (4) Whether the redevelopment plan was initiated by the city to facilitate redevelopment in an area; and*
- (5) Whether there are multiple land owners of discrete parcels or properties within the redevelopment area.*

(d) Any multi-project redevelopment plan or project submitted in accordance with such redevelopment plan shall be exempt from the requirements of this article except for the following provisions:

- (1) Subsection 40-13(d), provided that the statement of projected tax impact described in subsection 40-13(d)*
- (2) shall not be required;*
- (2) Section 40-16; and*
- (3) This section 40-19.*

(e) The special ordinance approving a multi-project redevelopment plan shall be effective for up to five years, after which the designation shall cease to be in effect and the redevelopment plan shall be void, unless the previous designation is extended by a subsequent resolution of council prior to the plan's expiration. ”⁵²

This Redevelopment Plan meets the criteria outlined in Section 40-19 of Article II of Chapter 40 of the Springfield City Code for a multi-project redevelopment plan, and therefore, is not required to demonstrate a “but-for” financial feasibility study. The plan qualifies under the provisions set forth by the City Council, which allows for tax abatement in areas suffering from widespread blight where a comprehensive redevelopment approach is necessary. The factors considered in determining a multi-project redevelopment plan—such as the size of the redevelopment area, the need for land assemblage, the overall scope of the project, the assemblage of land that is required, and whether the city initiated the redevelopment efforts—have all been met in this case. As a result, this plan is exempt from the standard financial feasibility requirements, with the exception of specific provisions outlined in Subsection 40-13(d), Section 40-16, and Section 40-19 of the Code.

However, while the project is not required to demonstrate a formal “but-for” financial feasibility study, it remains clear that this redevelopment would not be feasible but for the availability of tax abatement. Without this financial mechanism, the costs associated with revitalizing the blighted area—addressing infrastructure deficiencies, redevelopment of the area, and attracting private investment—would be prohibitively high, deterring development altogether. The multi-project designation ensures the longevity of this redevelopment plan for up to five years, allowing for the necessary investment and redevelopment efforts to take place. If needed, the designation can be extended by a subsequent City Council resolution

⁵² Springfield, MO Code of Ordinances Chapter 40- Community Development ARTICLE II- Workable Program, Sec. 40-19 (e)-Multi-project redevelopment plans

prior to its expiration, ensuring that the area continues to benefit from the tools necessary to facilitate comprehensive redevelopment and long-term economic revitalization of the City's aging neighborhoods.

b. Redevelopment Agreement

Pursuit to Section 40-14 of Article II of Chapter 40 of the Springfield City code (the "Code"), where "prior to applying to the LCRA for a certificate of qualification for tax abatement, the applicant shall execute a redevelopment agreement with the city, which has been approved by council concurrent with the redevelopment plan. Said agreement shall contain, at least, the following provisions:

(1) A termination clause which states that in the event of a breach of the redevelopment agreement or the redevelopment plan, that the city is entitled to damages from the breaching party in an amount equal to all ad valorem taxes which would have been assessed subsequent to the date of the breach and otherwise be payable with respect to the property had the LCRA not issued a certificate of qualification for tax abatement for the project. Said clause shall contain a notice and opportunity to cure before its provisions are acted upon;

(2) Provisions by which subsequent purchasers of property within the redevelopment area are bound by the provisions of the redevelopment agreement and redevelopment plan for the duration of any tax abatement authorized in connection with said redevelopment plan; and

(3) That the terms of the redevelopment agreement shall be considered essential terms of the approved redevelopment plan and that any violation of the redevelopment agreement shall constitute a violation of the redevelopment plan."

Before the application for a Certificate of Qualification for Tax Abatement (the "Certificate") is issued in connection with this Project, a redevelopment Agreement must be executed between the applicant for the Certificate and the City. The provisions of the Redevelopment Agreement between the City and the applicant are essential provisions of the Redevelopment Plan and violations of the Redevelopment Agreement shall also constitute violations of the Redevelopment Plan. The Redevelopment Agreement shall, at a minimum, address the requirements specified in Section 4-14 of the Code.⁵³

c) Public Facilities

The Redevelopment Plan is not expected to create a need for additional public resources such as schools, parks, recreational spaces, or community facilities. However, upgrades and potential relocations of essential infrastructure—including water, sewer, and other public utilities—will be necessary to support the redevelopment. Alleyway upgrades, sewer extensions, and Sidewalk improvements, conforming to ADA standards, may also be required to enhance pedestrian accessibility and safety. The cost of these upgrades will be the responsibility of the property owner executing the development, although approved incentives or taxing districts may help offset some of these expenses.

Additionally, any projects that require new utility installations must ensure that all lines are placed underground to maintain a clean and unobstructed streetscape. The redevelopment will also provide

⁵³ Springfield, MO Code of Ordinances Chapter 40- Community Development ARTICLE II- Workable Program, Sec. 40-14 (1)(2)(3) Redevelopment Agreement

adequate parking options, including private off-street spaces as well as access to public on-street and off-street parking. All parking accommodations will be designed to meet statutory requirements set by City ordinances and approved design standards, ensuring that the new development is both functional and compliant with local regulations.

d) Procedure for Changes to Modification of Plan

The Redevelopment Plan may be amended or modified upon application by the developer or its successors in interest, subject to approval by the Land Clearance for Redevelopment Authority with the consent of the Planning and Zoning Commission. If the proposed amendment or modification substantially changes the Redevelopment Plan, the City Council must also approve the amendment or modification.

- 2) Evidence In Support of Blight Conditions: Springfield Police Reports Figure G-62; G91

EXHIBIT G
EVIDENCE IN SUPPORT OF BLIGHT
PHOTO DOCUMENTATION

[Figure G1-G61]

G1. The rotted roof has severe structural failure, with large sections of missing or deteriorated shingles exposing the underlying structural beams to the elements. The failing section over the garage is hazardous, as the compromised support could lead to a sudden collapse, posing risks to both the structure and anyone nearby.

G2. This garage is severely deteriorated, with a collapsing roof, missing structural supports, and exposed openings, making it unsafe and uninhabitable. Its unstable condition poses a serious hazard to the neighborhood, creating an eyesore and potential for vagrants, due to the risk of collapse and unauthorized entry.

G3. This basement floor is heavily contaminated with feces, urine, and raw sewage from broken sewer laterals going under a separate, creating a severe health hazard. The presence of biohazardous waste poses risks of bacterial infections, airborne pathogens, and structural damage.

G4. This outdated electrical fuse panel poses a serious fire hazard due to its limited capacity and potential for overloading, especially if modern electrical demands exceed its design. The risk of overheating, short circuits, and improper fuse replacements increases the likelihood of an electrical fire.

G5. The improperly supported deck poses a serious safety hazard, increasing the risk of collapse and injury due to its lack of structural integrity, while the moldy, rolled-up carpet left in the yard creates an unsanitary eyesore, potentially harboring pests and allergens.

G6. The water-damaged wall and window frame show significant decay, indicating persistent moisture issues and potential structural deterioration.

G7. The structurally cracked, water-stained foundation basement wall shows signs of structural instability, flooding, indicating serious deterioration.

G8. The chipping lead paint on this rotting window frame poses a serious health hazard, particularly for children and pets, as lead exposure can cause neurological damage and developmental issues. The decayed wood also indicates structural weakness, increasing the risk of water infiltration, mold growth, and pest infestations.

G9. The excess brush and overgrown vegetation have overtaken the area, creating an unsightly and hazardous environment that can harbor pests and obstruct visibility. The damaged and deteriorating fence, with sections that appear broken or collapsed, further adds to the neglected appearance, reducing security and contributing to the overall blight of the property.

G10. The broken asbestos shingles and cracked foundation indicate severe structural deterioration, posing both health risks from hazardous materials and potential instability issues for the building.

G11:12. A failing retaining wall, falling over into public sidewalks, poses a significant hazard to pedestrians. The structural instability may also lead to a complete collapse. Additionally, displaced debris on the sidewalk creates a tripping hazard, further increasing the risk of accidents.

G13. The rotted door shows significant deterioration and peeling paint, while the presence of mold and moisture damage indicates poor ventilation and potential structural decay.

G14. The plumbing is outdated and not code compliant. Unsuitable materials, and unsecured drain connections, could lead to leaks, and water damage.

G15. This improperly wired electrical panel poses a serious fire and electrocution hazard, with unsecured connections, overloaded circuits, and a lack of proper insulation or grounding.

G16. The rotting fascia shows severe wood decay and structural deterioration, being vulnerable to water damage, pest infestation, and further structural compromise.

G17. The tree root system is growing through the foundation is causing serious structural concerns.

G18. The deck's rim joist is severely rotted and detaching from the wall, compromising the structural integrity of the deck and posing a serious safety hazard due to potential collapse.

G19. This deck is in a severely deteriorated condition, with rotting, warped boards, and extensive weather damage, making it structurally unsound.

G20. The window frame is severely deteriorated, with rotting, cracked wood, and peeling paint.

G21. The chipping and peeling paint on this older home suggests the presence of lead-based paint, which poses serious health hazards if not properly contained. Additionally, the foundation consists of non-code-compliant materials, leading to severe structural instability, while the indoor plumbing draining directly into exterior gutters creates potential contamination risks, contributing to unsafe living conditions and water-related health concerns.

G22. The rotting soffit and deteriorating fascia boards show significant water damage, possibly going into the walls. The decay of the siding along with chipping paint that may contain lead, posing both structural and potential health hazards.

G23. The rotting wood and deteriorated soffits, along with the failing gutters, show clear signs of water damage and possible mold growth, exacerbated by gaps that allow animal and rodent intrusion.

G24. The indoor plumbing is improperly routed through the exterior wall, extending directly into the ground without proper drainage infrastructure, creating potential sanitation and structural risks. Additionally, the broken asbestos siding has been inadequately patched with spray foam, which is not a safe or code-compliant repair method, further compromising the integrity of the building.

G25. The roof is severely deteriorated, with cracked, peeling, and failing waterproofing materials, creating a high risk for water intrusion, structural damage, and further degradation.

G26:27. The severely damaged roof and siding show significant structural deterioration, peeling paint, and exposed underlayment, posing a high risk for water infiltration, further decay, and potential collapse.

G28. The concrete step is severely deteriorated, with large cracks, crumbling edges, and exposed aggregate, creating a trip hazard and structural instability.

G29. The concrete porch is cracked and structurally failing. The railing is rotting and not secure.

G30. The improperly installed window air conditioning unit is surrounded by expanding foam insulation, with a makeshift, deteriorating awning, creating both an unsightly and potentially unsafe condition.

G31. The cracked foundation, is structurally failing, and a structural footing is non-existent.

G32. The structure shows severe deterioration, with chipped and peeling paint, rotting wood, a warped door, and a missing window, all contributing to significant structural and safety concerns.

G33. The railing is broken and severely deteriorated, posing a serious fall hazard. Additionally, the chipping and peeling paint is indicative of potential lead-based paint, creating significant health and safety risks, particularly for children.

G34. The peeling paint, rotting fascia, and overgrown vines on this deteriorating gable end indicate significant concerns about potential lead-based paint hazards.

G35. The sagging and damaged gutter, deteriorating chimney and peeling paint show significant deterioration to the property.

G36. The siding in this image is severely cracked and deteriorating, exposing the underlying structure to potential water intrusion and further structural issues.

G37. The steps and decking in this image are heavily weathered, with rotting wood, peeling paint, and moss growth, creating a hazardous and unstable entryway.

G38. The cracked foundation, broken window, and accumulated trash create an unsafe and unsanitary environment, contributing to structural instability and potential pest infestations. This neglected area poses both health and safety risks, further deteriorating the property and negatively impacting the surrounding neighborhood.

G39. The soffit is severely damaged with exposed insulation, rotting wood, and deteriorating materials, creating structural concerns and potential entry points for pests.

G40. The lower portion of this exterior wall exhibits severe deterioration, including rotting siding, peeling paint, and water damage, and debris accumulation, creating structural and pest intrusion risks.

G41. The soffit and fascia show significant deterioration, with rotting wood, peeling paint, and exposed spray foamed edges, potentially leading to structural damage and pest intrusion.

G42. The roof's edge and soffit show severe deterioration with rotting wood, peeling paint, and an improperly installed roof.

G43. The soffit and fascia are severely deteriorated with rotting wood, structural separation, creating potential for water intrusion and further damage.

G44. The siding is severely damaged with large cracks, missing sections, and signs of decay, exposing the structure to water.

G45. The kitchen is outdated, with undersized non grounded electrical, broken appliances and worn cabinetry, and exposed plumbing.

G46. The foundation has a significant crack in it, indicating structural instability, with a potentially vulnerable electrical pipe running across it.

G47. The incomplete job site with construction materials, debris, and unfinished work, creating a potential hazard until its habitable.

G48. The electrical wires that have been cut by vandals and left exposed, and posing a serious safety and shock hazard.

G49. The construction site with scattered debris, unfinished bricks, and scaffolding, indicating an incomplete work area.

G50. This shattered window, due to vandalism, poses a serious safety hazard with sharp glass shards and compromises the security of the building.

G51. The sidewalk is absent, and in need of replacement, bringing it up to ADA standards.

G52. This sidewalk is severely deteriorated with large cracks, uneven surfaces, and broken sections, creating a major tripping hazard.

G53. This foundation corner of the porch has significant cracks, indicating potential structural issues.

G54:55. This broken concrete approach and unpaved alleyway are in poor condition, with uneven surfaces, including broken sidewalks, loose gravel, and visible deterioration, making access difficult and potentially hazardous. This alleyway serves multiple dwelling units, a local business, and their employees. The sidewalk serves as a pedestrian path of travel for hundreds of students that attend Missouri State University.

G56. The foundation has a significant structural crack, indicating foundation issues that compromise the building's integrity.

G57. The foundation has a major structural crack, posing a serious risk to the building's stability.

G58. The roof is severely deteriorated with extensive cracking, patchwork repairs, and failing materials, indicating it has no remaining lifespan and needs complete replacement.

G59. The roof is in a state of extreme deterioration, with extensive cracking, weathered coatings, and makeshift wooden repairs, indicating it has completely failed and requires full replacement.

G60. This roof is in an advanced state of decay, with extreme cracking, peeling coatings, and makeshift, ineffective repairs, leaving it completely compromised and in need of full replacement.

G61. This structure exhibits extreme deterioration, with severely rotted wood, rusted and damaged plumbing vent piping, and failing layers of material, indicating a critical need for immediate structural repairs.

[Figure G62-G91]

residential Burglary. When I arrived, I spoke to the victim, Anthony Barnes. Barnes explained to me that he believed his ex-girlfriend, Harli Bush, broke into this apartment and damaged his television. Harli never lived at the apartment where Barnes was living. He presented me a handwritten note which was attached to his door. He was gone from home between 1300 hours and 1400 hours on 6/22/21.

The note had the name Harli written on the front and was then folded in half. On the inside the note stated, "I'm sorry I wish we were friends but this is not going to work. See you at Martha's, Junkie"

On scene it appeared as though the suspect entered the home by pushing a window air conditioner into the living room and climbing into the window. There was no damage to the air conditioner or window. The television was a 48-inch Vizio flat screen with an original value of \$350.

I photographed the scene and logged the media card into the property room as evidence along with the note.

I provided the case number to Barnes and explained the ex-Parte process to him. He stated he wanted to press charges if Harli did not leave him alone.

G.62

and when he returned at approximately 1500 hours, he noticed 2 items missing from his entertainment center located in the living room.

The items were:

- 52-inch ONN Flatscreen television. SN: P9190801C5A037048. Value: \$200.0
- LG soundbar speakers. SN: MEZ568R427940. Value: \$100.0
- Total Value: \$300.0

Barnes told me when he left for work, he had a window A/C unit sitting in the window located on the west side of the residence and that he left a sliding door on the east side of the building unsecured. Barnes said the window will not secure when the A/C unit is sitting in the window and has a 4-inch gap on both sides. Barnes stated the entertainment center had been moved out a few inches from the wall.

Using my issued point and shoot camera I photographed the residence, the window, and where the items were located and later submitted the media card into the property room as evidence.

I dusted for latent prints around the window, entertainment center, and back door and was unable to identify any prints.

I conducted a canvass of the area and did not locate any surveillance camera's and was unable to make contact with residence in APT A.

My body worn camera was later uploaded for review.

I gave all the victims this report number.

All three of the victims were highly intoxicated. The victims all had a hard time standing still and telling me what happened. When I left the area I saw the three victims walking in the direction that the males had gone.

Supplemental:

Author: #1370 WILLIAMS, C. **Report time:** 12/22/2016 11:01
Entered by: #1370 WILLIAMS, C. **Entered time:** 12/22/2016 11:01
Narrative:

I was assigned this case for follow up investigation. I reviewed the initial police report taken by Officer J. Brown (DSN#1740).

Follow Up

Derek Minich

I contacted Minich who advised me he had no additional information to provide at this time. Minich stated he believed he could possibly identify the suspects if seen again but said it would be a challenge as they were wearing masks, hoods, and sunglasses.

I advised Minich that often times in these types of robberies there is usually a narcotic element that led to the address being targeted. I advised this usually involved marijuana or illegal drug sales and he stated that could have led to this incident as well. He reported that no illegal substances were in his apartment at the time of this robbery.

Jessica Gamble

On 12/22/16 I contacted the female victim, Jessica Gamble, who stated since filing the police report she has gotten her cellular telephone back. She stated after the phone had been stolen she used a function to alert the possessor of the cellular telephone that it was stolen and to leave it at "The Flea." Gamble said the following afternoon, at approximately 1300 hours, went to the location and located her cellular telephone. She reported bar staff had stated an older woman had located it inside the bar.

Gamble stated after police cleared the scene on the morning this incident took place Minich located a knife which they believed belonged to the suspects. They believed the suspects were in possession of knives as well as guns. She stated she attempted to contact police to report this find but had not received any contact back. Gamble advised that nobody witnessed the suspects drop the knife as they fled. Due to the elapsed time and the transfer between parties I did not attempt to collect the knife as evidence.

Gamble had no further suspect information to provide at this time.

Wesley Bishop

On 12/22/16 I attempted to contact Bishop but was unsuccessful. As of this date I have received no contact from Bishop.

CAD/Dispatch Comments:

SOUNDS LIKE SOMEONE IS IN THEIR HOUSE CLR THINKS HE SAW SOMEONE WITH A < GUN > GUYS WITH MASKS OUTSIDE THE WINDOW WITH A POSS GUN CLR ADV THEY ARE DOWNSTAIRS CLR IS UPSTAIRS THERE ARE 3 APTS AT THIS LOC ALL APTS ARE IN THE SAME HOUSE. CLR LIVES IN UNIT C UPSTAIRS HE HEARS YELLING DOWNSTAIRS CLR DOESNT HAVE ANY WEAPONS CLR ADV THE PEOPLE THAT ARE DOWN STAIRS SEEM TO BE SCARED CLR FROM < APT B > ADV HE WAS JUST ROBBED AT GUNPOINT, THEY KICKED IN HIS DOOR 2M'S, WITH MASKS BOTH HAD PISTOLS, LEFT ON FOOT, UNK DOT MW, SKELETON MASK, ALL BLACK CLOTHING MB, SKELETON MASK, ALL BLACK CLOTHING

On 11/29/2016, at about 0307 hours, I was dispatched to 328 S Hampton for a Robbery. When I arrived on scene I located Wesley Bishop behind the residence throwing some items in the trash can. Bishop told me that he had just been robbed. Bishop was in front of the residence when three males came running at him. One was a skinny black male around 6'3". Another was a white male around 5'7". There was a third, but Bishop could not get a description. All three males had black hand guns. The males demanded that he get on the ground. One of the males hit Bishop in the chest with the butt of the pistol. Bishop laid on the ground. One of the males took Bishop's wallet. Inside the wallet were his driver's license, a Central Bank credit card, and \$220 in cash. One of the males stayed outside of the residence and the other two entered into apartment B.

Wilson Bryan lives in the upstairs apartment (apartment C). Bryan heard something and looked out the window. Bryan saw a man in a mask standing out side of apartment B.

Derek Minich was in apartment B when he heard screaming outside of his door. Two males opened his door and entered into his apartment. One of the males hit Minich in the chest twice with a handgun. The males started to go through Minich's room. The males took an Xbox One and \$700 in cash. Minich said the males seem nervous. Minich said he thinks it could have been an air soft gun because it did not hurt when he was hit by it. Minich said the males were wearing skull masks that covered the bottom parts of their faces. Minich said seemed like the males had been there before because they seemed to be looking for something.

When I was talking to Bishop, a female, Jessica Gamble came running toward me from across the street. Gamble asked who I was and I informed her that I was a police officer. Gamble said that she had been in apartment B when the three males came in. She tried to call 911, but one of the males took her Samsung S6 Edge cell phone. The males left the residence. Gamble grabbed someone else's phone and went outside after the males. Gamble saw the males run toward the west through some of the apartments. Gamble told me that she could locate her phone by using an app on the other phone she grabbed. Gamble tried to run off to follow the males multiple times. I told Gamble that she could not run off after the males because they were armed. Gamble told me that they would not hurt her because "I have tits and they are amazing." Gamble ran off towards the west and said that it was a free county and we could not stop her from going where she wanted.

Wilson Bryan

I contacted the witness, Wilson Bryan, who advised he had nothing further to report and that he only witnessed a brief portion of the incident.

Conclusion

I am SUSPENDING this case pending further investigative leads.

Ofc. Bashioum advised he located the scooter on the property earlier today but it was not listed as stolen at that time.

Ofc. Bashioum and I contacted the vehicle owner, Michael Dameron, near McDaniel/Hampton. He showed us a photo of the stolen scooter and the ping from the airtag attached to his scooter (blue/white 2007 Honda Metropolitan scooter VIN: JH2AF60057K505026 with missing left mirror and crack on rear panel), which pinged right at 328 S. Hampton.

Ofc. Bashioum and I arrived at the 328 S. Hampton address. This residence was divided into three separate apartments that did not connect. Ofc. Bashioum checked where the scooter was earlier today but it was not there. Several doors and windows were boarded up with plywood, however, some were missing. I checked the second story door on the east side of the residence. I noticed the plywood slab covering the door appeared to be removed by force due to screws being exposed. The door was locked. There were several "No Trespassing" signs placed around the residence. Dispatch contacted the property owner, Brandon Dickman, who advised no one was allowed on the property and would be willing to pursue charges for trespassing. A perimeter was established and a K-9 responded. A plywood slab covered the east sliding glass door, which was unlocked. After several announcements, a male attempted to exit one of the north windows but retreated back inside. Eventually the male exited the east door and was detained. The male was identified as Elton Choate. Officers cleared the units but no one else was located. The scooter was not located.

Brandon advised he also owned the two properties east of 328 S. Hampton, which were 323 and 327 S. Florence. Brandon stated 323 was vacant but 327 currently had a tenant.

Since the scooter was not located but the air tag still pinged at 328 S. Hampton, I had Dameron use the chime feature on the airtag app to at least recover his airtag. The chime was played several times inside the residence but could not be heard. While checking the other side of the fence between 328 S. Hampton and 323 S. Florence, I located a slab of plywood covering the basement of 323 S. Florence. When I removed the plywood, I observed Dameron's scooter as he described it just inside the basement.

Dispatch confirmed the scooter was stolen. Dameron advised there was new damage to the scooter:

- Headlight assembly valued at \$300
- Ignition switch trim piece valued at \$150
- Scuff marks on the seat valued at \$100

I took photos of the scooter. I released the scooter to Dameron.

The trespassing report regarding Elton Choate was documented on 23-19347.

This incident was documented on my body worn camera.

Narrative:			

On 6/28/2023 at 0626 hours, I was dispatched to Hampton and Walnut for a male who pushed a moped behind an abandoned house northeast of the intersection.

Upon arrival I located the abandoned building at 328 S Hampton. The residence was a multi resident unit and there was plywood on several of the entrances. There were "No trespassing" signs posted all over the building. Several of the windows were open, and there was a second door balcony door that was opened. Several of the plywood coverings had been pulled away and the building appeared unsecured.

There was a blue and white Honda scooter parked behind the residence underneath the stairwell. The scooter had the front portion removed to expose the wiring. I conducted a check through dispatch on the VIN (JH2AF60057K505026), and they advised it returned not on file, and not stolen.

Narrative:			

On 06/28/2023 I was working at the front desk at Police Headquarters (321 E Chestnut Exy) when a subject came in to report a stolen vehicle.

The subject, Michael Dameron, stated his 2007 Hinda CHF50 (VIN: JH2AF60057K505026) was stolen between 06/27/2023 2359 hours, and 06/28/2023 1100 hours. The vehicle was a gift from his grandmother-in-law. Dameron stated he had an Apple Air tag attached to the vehicle and was pinging at 325 S Hampton.

Dameron described the vehicle as royal blue and white. The left mirror was missing and there was a crack down on the back of the moped.

Dameron said no one had permission to use the mope or have possession of it. Dameron did not know who would have stolen the mope. Dameron stated he wanted to pursue charges if the suspect was located.

I provided Dameron with a case number. I later tasked MULES to add the vehicle as stolen.

Narrative:			

On 06/28/2023, while working MULES, I received a hit from Dispatch stating that Officer McConnell was out with the owner, Michael Dameron and the stolen scooter mentioned in this report.

I confirmed the entry active per our records, and tasked MULES for removal.

VTU was already tasked at the time of this report.

Narrative:			

On 6/28/23, I was dispatched to 328 S. Hampton reference a stolen scooter.

I requested dispatch check resources for owner information for 328 S Hampton. Dispatch advised it checked to a Florence 327 LLC but they were unable to locate a phone number for contact.

Due to the moped not returning as stolen, not registered to anyone, and being unable to locate owner information for the residence, I cleared the scene with no further action.

Later in my shift, I was dispatched back to the residence for a stolen scooter, with an airtag attached, that was pinging at the residence. I contacted the callers with Ofc. McConnell, and was shown a picture of the scooter. The scooter in the photo matched the scooter I had located earlier in my shift. The airtag ping showed it was inside the building or directly outside.

I responded to the Hampton residence and the scooter was no longer outside the residence. Owner information was located by dispatch, and the owner was contacted. Dispatch advised no one should be in the residence, and they would pursue trespassing charges on anyone inside the building.

Several more officers responded and a K9 unit arrived. While waiting to make entry, a male tried to exit a window on the northside of the residence, but retreated inside when I attempted contact.

I remained on scene to assist with scene containment until all subjects were in custody. See Ofc. McConnell's report for more information.

Narrative:

Thomas Dylan Buehler called Telcom on 2/14/2022 to report vandalism. Buehler stated he parked his silver 1999 Chevrolet Tahoe parked outside his apartment at 328 S. Hampton Ave at 0000 on 2/14/2022. Buehler stated he returned to his vehicle at 1:30 and discovered the front drivers side tire had been slashed. Buehler stated it appeared the suspect first tried to cut the air valve but was unsuccessful so they stabbed the tire. Buehler stated the tire replacement would cost \$150.

Buehler stated there is no surveillance at his apartment building. Buehler stated he believes his neighbor AJ Barnes, is a person of interest because he is "crazy" and Buehler recently stopped him from beating his girlfriend. Buehler stated Barnes lives in apartment B. Buehler stated he contacted Barnes who denies the vandalism.

Buehler stated he is eager to prosecute. He was given this report number.

OPEN LINE DISG, NO ONE RESPONDED TO CT, FEMALE STATED AND YOU ATTACKED ME. POSSIBLE ASSAULT APT A RP IN A PHYS WITH HER HUSBAND, REFUSING EMS. SUBJUS NAME IS SETH GARDIS MW BRIGHT CARHEART HOODIE, JEANS, NIKE SHOES. NO WEAPONS. UNK INTOX. < COVID POSITIVE > RP REFUSING TO PRESS CHARGES AGAINST THE MALE. ALL PARTIES ARE COVID POSITIVE. MISTY IS HYSTERICAL, KEEPS CRYING SHE DOESNT WANT HIM TO GO TO JAIL, SHE JUST WANTS SOMEONE TO CALM HIM DOWN. ANNOUNCED

On 01/22/2022, at about 2311 hours, I was dispatched to 328 S. Hampton Apt A for a domestic assault call. When I arrived on scene, I contacted Misty Gargus. Misty told me that she was having an argument with her husband of 3 years (Seth Gargus). Misty said she was positive for Covid-19 and Seth accused her of lying. Misty said she was calling 911 to scare Seth. Seth went up and hugged Misty. Misty said Seth hugged her to get her phone from her. Misty said she did not think Seth was attempting to assault her but took it that way because they were fighting. Misty said she was not injured and did not want to press charges. Misty said she wanted to take her son Tyler and go to her mother-in-law's house for the night. Misty and Seth have a history of loud arguments.

I did not observe any injuries to Misty.

I completed a Domestic Violence Lethality Assessment with Misty.

I gave Misty a victim/witness pamphlet.

Officer Thompson interviewed Seth. See Officer Thompson's report for more information.

Seth did not have any injuries and said he was not assaulted by Misty.

I waited on scene until Misty and Tyler left.

Based on the facts that neither party had any injuries and Misty was not sure if Seth was attempting to assault her, I was not able to determine a primary physical aggressor. I did not have probable cause to submit a case packet at the time of this report.

Supplemental:

Author: #1771 THOMPSON, J. **Report time:** 01/23/2022 06:22
Entered by: #1771 THOMPSON, J. **Entered time:** 01/23/2022 06:22

Narrative:

On 1-23-22 I responded with Officer Brown to a possible domestic assault at 328 S Hampton.

I spoke with Seth Gargus, who told me he and his wife (Misty Gargus) had been in an argument. He told me during the argument Misty had come outside and was being loud. Seth said he grabbed onto Misty, and made a reference like he was hugging something. Seth told me he had been verbally arguing with Misty but was trying to get her calmed down at that point. Seth said something to the effect that he told Misty to be quiet or people would start calling the police. Seth explained that while Misty pulled away from him she had fallen down on the porch.

I provided that information to Officer Brown. My BWC footage was associated with this incident.

Entered by: #1877 MCCONNELL, A. **Entered time:** 06/29/2023 02:15
Narrative:

On 6/28/23, I was dispatched to 328 S. Hampton reference a stolen scooter that was located using an attached Apple airtag.

I contacted the caller near McDaniel/Hampton. The scooter was pinging directly over 328 S. Hampton.

The 328 S. Hampton property was a two story residence divided into three separate apartments that were not connected. There were multiple "NO Trespassing" signs posted around the property. Dispatch contacted the property owner, Brandon Dickman, who stated no one was allowed on the property and would be willing to pursue charges if someone was located inside. The plywood covering the second floor door appeared to be forced open due to the exposed screws in the wood. A slab of plywood covered the east side sliding glass door, but the door was unsecured. A K-9 unit arrived. After multiple announcements were made, a male attempted to exit one of the northern windows but retreated when he saw officers. Officers and the K-9 unit pushed into the room with the sliding glass door. When officers pulled open the door, which led into a hallway, the door quickly shut as if someone was holding the door from the other side. Officers gave more commands. A male voice said he would comply but he had to move belongings that he used to barricade the door. Eventually the male exited and was detained without further incident. The male identified himself as Elton Choate. Elton provided me with his name and date of birth but had difficulty remembering his social security number. Dispatch later confirmed Elton had two felony warrants (Greene County GRFTA 22-4960 for 1st degree tampering \$1,500 and Christian County 23CTARW132 \$1,500) and one misdemeanor warrant (SPD FTA indecent exposure 19-0359689 \$1,000.)

I requested dispatch contact Brandon to respond to the scene. Brandon stated this was the fourth time someone had broken into the units since he became the property owner of this unit and 323 and 327 S. Florence. Brandon was unsure what damage was new and old. I provided Brandon with a victim/witness card with this report number.

The stolen scooter was recovered in the basement of 323 S. Florence, which was also a vacant unit. SPD 23-19330 documented the stolen scooter.

Elton was transported to the Greene County Jail and booked in on his warrants and 1st degree trespassing and placed on a 24-hour hold.

I later completed a misdemeanor criminal case report packet for 1st degree trespassing. The packet was placed in the SDS Records Outbox. I logged the media card in the SDS Property Room.

This incident was documented on my body worn camera.

In the case report packet attached to this report, Victim 1 will be Brandon Dickman and Suspect will be Elton Choate.

Narrative:

Victim, Alex Huegerich, called Telcom to report theft of his backpack and its contents and damage to his white 2013 Honda Elantra.

Huegerich stated his vehicle was left locked and parked in the tenant parking lot. Huegerich indicated the suspect(s) gained access to his locked vehicle by smashing out the rear passenger door with an unknown instrument.

At the time of this report writing, Huegerich reported no other items stolen, no suspect information and no other property damage. Huegerich stated he would be willing to prosecute.

I advised Huegerich of the report number for future references.

Entered by:	#1643 ST CLAIR, C.	Entered time:	05/06/2021 14:42

Narrative:

On 05/05/2021 I responded to 328 S Hampton in reference to a past stealing from a vehicle. Upon arrival, I contacted Thomas Buehler in reference to the incident. Thomas was standing next to his 1999 Chevrolet Tahoe, bearing MO license 0DE S47.

According to Thomas, he parked his vehicle at approximately 1800 hours on 05/05/2021 near his apartment complex (328 S Hampton #C). On 05/06/2021, he went out to his vehicle and noticed the driver's door lock had been damaged. He also noticed his driver's door was ajar. He opened the door and saw the plastic trim around the steering column and the ignition had been damaged. He attempted to start his vehicle and it would not start. After attempting to start the vehicle, he attempted to turn it off but it would not completely turn off. The engine began to smoke and he disconnected the battery terminal while I was there.

Thomas advised an old BB gun (unknown make, rifle style), his Missouri car title, and some coins was stolen from inside the vehicle. Thomas advised he purchased the vehicle from his mother for approximately \$1,500.00.

I photographed the vehicle and dusted for latent prints. I located a partial print on the driver's door and passengers door. I collected both partial latent prints.

I spoke with Seth Gargus (neighbor) in reference to the incident. Seth advised he exited his residence at approximately 0500 hours on 05/05/2021 and saw a Caucasian female and male walking through the alleyway. Seth advised both individuals were wearing backpacks. I asked Seth if he saw either of them carrying a rifle or BB gun and Seth stated he believed the male was but was not certain.

Seth described the individuals as followed: Caucasian male, approximately 6'0, approximately 180 pounds, white T-shirt, and wearing blue jeans. Seth described the female as Caucasian, approximately 5'5, 130 pounds, wearing black long sleeve T-shirt, and black pants.

I informed Thomas of the report number in reference to the incident. I logged the media card and latent print cards in to the property room at Headquarters.

Entered by:	#1824 VU, A.	Entered time:	07/11/2023 16:56

Narrative:

On 07/11/2023 at around 1412 hours, I was dispatched to 327 S. Florence Avenue in reference to a possible residential burglary situation.

The following is a summary of my investigation. Refer to my body worn camera footage for the exact transcript.

When I arrived, I noticed Officers had already established containment around 327 S. Florence Avenue. I contacted the reporting party (identified as Jennifer Stiles) when she arrived on scene.

Stiles advised she was the property manager for Roza Homes and 327 S. Florence Avenue was one of the properties owned by the company. Stiles said the logged address was vacant since May of 2023 and no one should be inside of the residence. Stiles advised the logged address was checked by another employee of Roza Homes around 2-2 1/2 weeks prior to this investigation and it was secured. Stiles provided me with her statement.

Stiles told me she was working today when she received a phone call from an unnamed citizen. Stiles stated the citizen told her 327 S. Florence Avenue was posted for rent on Craigslist and they were interested in renting the location. Stiles said the citizen told her they were at the logged address and they noticed the back door was broken.

Stiles said she looked up the advertisement on Craigslist described by the citizen and noticed it was a fraudulent advertisement listing using 327 S. Florence Avenue (refer to report #23-20888 for further details).

Stiles stated she told the citizen the advertisement for 327 S. Florence Avenue was fraudulent and she called the police to check on the logged address. Stiles requested a safety sweep for the interior of 327 S. Florence Avenue and stated the owner of Roza Homes (identified as Dixie Decker) would be willing to press charges against anyone was located inside of 327 S. Florence Avenue during the safety sweep.

I approached the back door of 327 S. Florence Avenue and noticed the top half of the back door was broken off and the bottom half still attached to the door frame was opened. I announced my presence several times and entered the residence with other Officers after receiving no response.

During the safety sweep, I found the upstairs door was locked via a latch above the door knob. My backup Officer contacted Stiles and she confirmed the door should not be locked while noting she did not have a key to the upstairs door. Stiles advised Officers were allowed to force the upstairs door open to complete the safety sweep.

I retrieved my hand held ram and forced the upstairs door open with a handful of strikes. The safety sweep was completed and no one was located inside of 327 S. Florence Avenue. I noticed, during the process of forcing the upstairs door open with my hand held ram, I caused damage to the door frame where the latch connected to the door frame and there was noticeable damage on the upstairs door itself where the ram connected. I examined the top latch which held the upstairs door shut and found it was a self locking type device.

I took photographs of the damaged back door and the damaged upstairs door/door frame. Stiles advised it would cost around \$400.00 to repair both the back and upstairs door; total cost would be around \$800.00.

I provided Stiles with the case number.

Due to lack of available media card at this time, I used the same media card involved with this incident to document the fraudulent Craigslist ad (refer to report #23-20888).

I logged the media card used for this incident and report #23-20888 to the SDS property/evidence room.

Nothing further.

Entered by: #1824 VU, A. **Entered time:** 07/11/2023 19:08
Narrative:

On 07/11/2023, I was dispatched to 327 S. Florence Avenue in reference to a past burglary incident (refer to report #23-20884 for further information). The call for service concerning incident #23-20884 was initiated at approximately 1410 hours.

The following is a summary of my investigation. Refer to my body worn camera footage for the exact transcript.

During my investigation, the reporting party (identified as Jennifer Stiles) advised she was the property manager for Roza Homes and 327 S. Florence Avenue was one of the properties owned by the company.

Stiles told me she was working today when she received a phone call from an unnamed citizen. Stiles stated the citizen told her 327 S. Florence Avenue was posted for rent on Craigslist and they were interested in renting the location. Stiles said the citizen told her they were at the logged address and they noticed the back door was broken.

Stiles said she looked up the advertisement on Craigslist described by the citizen and noticed it was a fraudulent advertisement listing using 327 S. Florence Avenue.

Stiles stated she told the citizen the advertisement for 327 S. Florence Avenue was fraudulent and she called the police to check on the logged address. Stiles requested a safety sweep for the interior of 327 S. Florence Avenue and stated the owner of Roza Homes (identified as Dixie Decker) would be willing to press charges against anyone was located inside of 327 S. Florence Avenue during the safety sweep.

A safety sweep of 327 S. Florence Avenue was performed and no one was located within (refer to report #23-20884 for further details). I had Stiles show me the Craigslist ad.

The Craigslist ad showed photographs of 327 S. Florence Avenue and listed the location for rent under the name "Beautiful home for rent" with a price of \$800.00 listed. Craigslist showed the ad was listed on 07/10/2023 and the associated post ID number was 7641701675. The poster was named "Charlie Highfill" with a phone number of 573-617-7458 and an email of 5781b07489433efea9e4d8142de356e7@hous.craigslist.org. The ad noted:

"This is a amazing home. 2 full BR. 1 full bath, ceiling fans, air conditioner in every room, gorgeous hardwood floors, and in a very nice neighborhood. There is a beautiful completely finished upstairs which makes it 3 BR. Truly an amazing home. This is available asap upon approved application and rent and security deposit. \$800 month + \$700 dep. Pets welcome for additional \$50 month. To fill out application and schedule specific time to see the house, please email or message for application. There is a \$25 application fee which covers cost of background checks and credit checks."

I took photographs of the above noted ad. Due to the lack of media cards, the media card used during this incident was the same as the one I used for #23-20884.

I provided Stiles with the case number. I requested for Stiles to send the screenshots of the Craigslist ad to centralrecords@springfieldmo.gov.

Using DOR resources, I found a subject named Charlie Highfill existed with an active warrant for his arrest and listed him as a person of interest.

Nothing further.

Narrative:

Nathaniel Baldwin contacted Telcom to report the theft of his Springfield Armory XD45 semiautomatic pistol and 15 round magazine from his 2015 Chevrolet Sonic while it was parked at his residence.

Baldwin reported that he believes the theft took place on 10/11/2016 at some time between 0600 and 2010 hours. Baldwin advised that the vehicle was left unlocked, as he had no troubles before with having an unlocked car in his neighborhood. When Baldwin went to his vehicle at 2010 hours, he discovered that his gun and the magazine that he kept in the driver's side door were missing. He was able to provide the serial number for the gun as XD703115 and estimated it to be worth \$515.

Baldwin is willing to prosecute for the theft.

Baldwin was provided with this report number.

MULES was tasked for entry.

Reports:

General report:

Author:	#1824 VU, A.	Report time:	01/12/2020 15:25
Entered by:	#1824 VU, A.	Entered time:	01/12/2020 15:25
Narrative:	On 01/12/2020, I was dispatched to 307 S. Florence Avenue in reference to a past residential burglary.		

When I arrived, I contacted the caller (identified as Ethan Meyer) after he allowed me inside of the residence. Meyer told me he lived at the logged address with his roommate (identified as Samuel Chanitz). Meyer advised his residence was burglarized while he and Chanitz were out of town visiting family for winter break. I obtained Meyer's statement.

Meyer said he was last at the logged address on 12/13/2019. Meyer told me he and Chanitz secured the residence before leaving the logged address during the afternoon of 12/13/2019. Meyer advised he returned to the address today during the afternoon. Meyer said the front door was locked, but when he entered the residence he noticed the living room television cabinet was tampered with, several items were stolen, and his back door was open with visible damage to the back door frame. Meyer advised the following items were missing:

- One black in color 55 inch 4K Roku Television; SN: 1901GTD000013A07882; valued at \$210.00.
- One black in color Xbox One gaming console and two black in color Xbox One controllers; unknown serial number; one controller marked with "Day 1 Edition" underneath the middle Xbox button; valued at \$600.00 total.

The total value of known stolen items at the time of this investigation would be \$710.00. Meyer advised he did not know how much it would cost to repair the back door at the time of this investigation.

Meyer was unable to provide me with suspect information at the time of this investigation. I was unable to speak to Chanitz due to him not being at the logged address at the time of this investigation. I processed the scene.

I took photographs of the residence, the damaged back door frame, and of the serial number associated with the stolen Roku Television. As I examined the back door exterior, I did not locate any shoe/boot prints on the door at the time of this investigation. I was unable to locate any potential latent prints during this investigation.

I provided Meyer with the case number. I advised Meyer, and by extension Chanitz, to report any other stolen items related to this incident to Telcom.

I tasked the MULES desk in adding the serial number associated with the Roku Television.

The media card associated with this incident was logged to the property/evidence room at Police HQ.

Nothing further.

Entered by:	#N162 STEWART, F.	Entered time:	07/15/2024 19:21
Narrative:	On 07/15/2024, Andrea Bruner called Telcom to report suspicious activity that occurred on 07/15/2024 between 11:00 and 12:00 at her residence, 307 S. Florence Avenue.		

Bruner reported that at 11:00, she witnessed an unknown individual walk around her house, approach her front door, "quietly" twist the doorknob, peek through her windows, and then leave. Bruner stated that at 12:00, the individual came back to her residence and acted in the same manner as the first time. However, Bruner informed that she and her friend (information unknown) went outside and "stared him down," which made

him "briskly" walk away from her residence.

Bruner described the individual as a black male, 5'8, skinny, and was wearing a black sweatshirt and black sweatpants. Bruner expressed that she felt concerned for her safety as this was the second time an unknown stranger had approached her residence and acted suspiciously. Bruner also mentioned that she lived at the residence alone and had no surveillance footage.

I provided Bruner with this report number for her records.

Ofc. Bashioum advised he located the scooter on the property earlier today but it was not listed as stolen at that time.

Ofc. Bashioum and I contacted the vehicle owner, Michael Dameron, near McDaniel/Hampton. He showed us a photo of the stolen scooter and the ping from the airtag attached to his scooter (blue/white 2007 Honda Metropolitan scooter VIN: JH2AF60057K505026 with missing left mirror and crack on rear panel), which pinged right at 328 S. Hampton.

Ofc. Bashioum and I arrived at the 328 S. Hampton address. This residence was divided into three separate apartments that did not connect. Ofc. Bashioum checked where the scooter was earlier today but it was not there. Several doors and windows were boarded up with plywood, however, some were missing. I checked the second story door on the east side of the residence. I noticed the plywood slab covering the door appeared to be removed by force due to screws being exposed. The door was locked. There were several "No Trespassing" signs placed around the residence. Dispatch contacted the property owner, Brandon Dickman, who advised no one was allowed on the property and would be willing to pursue charges for trespassing. A perimeter was established and a K-9 responded. A plywood slab covered the east sliding glass door, which was unlocked. After several announcements, a male attempted to exit one of the north windows but retreated back inside. Eventually the male exited the east door and was detained. The male was identified as Elton Choate. Officers cleared the units but no one else was located. The scooter was not located.

Brandon advised he also owned the two properties east of 328 S. Hampton, which were 323 and 327 S. Florence. Brandon stated 323 was vacant but 327 currently had a tenant.

Since the scooter was not located but the air tag still pinged at 328 S. Hampton, I had Dameron use the chime feature on the airtag app to at least recover his airtag. The chime was played several times inside the residence but could not be heard. While checking the other side of the fence between 328 S. Hampton and 323 S. Florence, I located a slab of plywood covering the basement of 323 S. Florence. When I removed the plywood, I observed Dameron's scooter as he described it just inside the basement.

Dispatch confirmed the scooter was stolen. Dameron advised there was new damage to the scooter.

- Headlight assembly valued at \$300
- Ignition switch trim piece valued at \$150
- Scuff marks on the seat valued at \$100

I took photos of the scooter. I released the scooter to Dameron.

The trespassing report regarding Elton Choate was documented on 23-19347.

This incident was documented on my body worn camera.

Narrative:			

On 6/28/2023 at 0626 hours, I was dispatched to Hampton and Walnut for a male who pushed a moped behind an abandoned house northeast of the intersection.

Upon arrival I located the abandoned building at 328 S Hampton. The residence was a multi resident unit and there was plywood on several of the entrances. There were "No trespassing" signs posted all over the building. Several of the windows were open, and there was a second door balcony door that was opened. Several of the plywood coverings had been pulled away and the building appeared unsecured.

There was a blue and white Honda scooter parked behind the residence underneath the stairwell. The scooter had the front portion removed to expose the wiring. I conducted a check through dispatch on the VIN (JH2AF60057K505026), and they advised it returned not on file, and not stolen.

Narrative:			

On 06/28/2023 I was working at the front desk at Police Headquarters (321 E Chestnut Exy) when a subject came in to report a stolen vehicle.

The subject, Michael Dameron, stated his 2007 Hinda CHF50 (VIN: JH2AF60057K505026) was stolen between 06/27/2023 2359 hours, and 06/28/2023 1100 hours. The vehicle was a gift from his grandmother-in-law. Dameron stated he had an Apple Air tag attached to the vehicle and was pinging at 325 S Hampton.

Dameron described the vehicle as royal blue and white. The left mirror was missing and there was a crack down on the back of the moped.

Dameron said no one had permission to use the mope or have possession of it. Dameron did not know who would have stolen the mope. Dameron stated he wanted to pursue charges if the suspect was located.

I provided Dameron with a case number. I later tasked MULES to add the vehicle as stolen.

Narrative:			

On 6/28/23, I was dispatched to 328 S. Hampton reference a stolen scooter.

I requested dispatch check resources for owner information for 328 S Hampton. Dispatch advised it checked to a Florence 327 LLC but they were unable to locate a phone number for contact.

Due to the moped not returning as stolen, not registered to anyone, and being unable to locate owner information for the residence, I cleared the scene with no further action.

Later in my shift, I was dispatched back to the residence for a stolen scooter, with an airtag attached, that was pinging at the residence. I contacted the callers with Ofc. McConnell, and was shown a picture of the scooter. The scooter in the photo matched the scooter I had located earlier in my shift. The airtag ping showed it was inside the building or directly outside.

I responded to the Hampton residence and the scooter was no longer outside the residence. Owner information was located by dispatch, and the owner was contacted. Dispatch advised no one should be in the residence, and they would pursue trespassing charges on anyone inside the building.

Several more officers responded and a K9 unit arrived. While waiting to make entry, a male tried to exit a window on the northside of the residence, but retreated inside when I attempted contact.

I remained on scene to assist with scene containment until all subjects were in custody. See Ofc. McConnell's report for more information.

Narrative:

Aaron Inman called Telcom on November 12, 2020, to report a theft from his beige 2006 Toyota Corolla at 323 S. Florence. Inman reported he locked and parked the vehicle across the street last night around 2230 hours and discovered the crime this morning at 0830 hours. He advised he had no security video. Inman reported the interior trim below the driver's door was damaged as the suspect(s) removed it to remove wiring for the Alpine amplifier (stolen). Also missing were a tool bag containing roadside assistance equipment, and vehicle documents from the glove compartment. Inman had no suspect information. He did not know how entry was gained. He is willing to press charges. I gave him this report number.

Narrative:

On 06/13/2023 at approximately 0810 hours, Genevieve Buchanan called telcom to report a domestic assault. Buchanan stated on 06/08/2023 she broke up with her boyfriend, Gavin Hooser. Buchanan advised at approximately 2200 hours on 06/08/2023, she confronted Hooser at their residence at 1104 E McDaniel Street about him texting other females. Buchanan stated she and Hooser started to argue and he attempted to leave the residence. Buchanan stated as Hooser was walking toward the front door of their residence she grabbed the back of his shirt to try to stop him from leaving. Buchanan advised Hooser turned around and punched the left side of her jaw with his

closed right fist one time. Buchanan stated she still had a grip of his shirt after being punched in the jaw and Hooser picked her up off of the ground and threw her on the bed and walked out of the residence.

Buchanan stated she did not sustain any injuries to her jaw or body such as redness, soreness, swelling, or marks. I provided the central records email to Buchanan and advised her to provided pictures of her jaw.

Buchanan completed a "Domestic Violence Lethality Assessment". Buchanan answered "yes" to questions:

- 3
- 4
- 6
- 7
- 9

(See assessment for further).

Buchanan stated she was willing to prosecute.

I provided this report number to Buchanan.

Due to not being able to get a statement from Hooser and no evidence of injury from Buchanan, a case packet was not completed at this time.

Entered by:	#1566 MCMULLIN, J.	Entered time:	09/04/2023 07:40

Narrative:

On 09/04/2023, at 07:10 hours, I responded to Police Headquarters to contact a complainant of past sexual assault. Information provided to me through CAD described multiple past sexual assaults occurring over a two year period by

the complainant's boyfriend.

I located the complainant, Genevieve S. Buchanan, in the parking lot outside the Headquarters lobby. I obtained a brief summary of what exactly Buchanan was needing reported, then obtained her pedigree information. Due to the time of day and it being a holiday (Labor Day), the parking lot was of void of any other persons. Because of this, I decided to gather Buchanan's statement there by her vehicle.

Buchanan informed me her ex-boyfriend, Gavin Hooser, sexually assaulted her countless times during their two year romantic relationship. Buchanan advised me some of the assaults occurred out of state and in other jurisdictions within Missouri. However, multiple assaults occurred at 1206 E. Norton and her current address of 1104 E. McDaniel (note: I later checked resources and found that 1206 E. Norton is not a good address).

The types of assaults Buchanan described were Hooser ejaculating inside her vagina without consent. Coercing her to have sex when she did not want to -- she described this as he would ask her repeatedly for sex until she relented and said yes. And finally having sexual relations with her when she was extremely drunk.

Buchanan advised me that there were times that she consensually had sex with Hooser, but other times she did not want to and he would either badger her into agreeing to it or have sex with her when she was intoxicated. Buchanan recalled times of Hooser telling her the following day that they had sex, but she had no recollection of the act occurring.

Buchanan was unable to provide me with any specifics regarding dates, how many times, or where these acts occurred. When asked for estimates, Buchanan was unable to do so. She only knew that it happened numerous times. When asked the last time one of these incidents occurred, Buchanan was unable to give me an approximate date/time or specific act. Buchanan advised me she broke up with Hooser approximately two months ago.

I did not attempt to interview Buchanan any further due to her inability to recall any specifics regarding the reported assaults.

Buchanan advised me she wished to seek prosecution against Hooser.

The Sexual Assault Survivor's Rights form was signed by Buchanan and she was provided a pamphlet containing victims resources and the report number for this incident. I also provided Buchanan with instructions on how to follow up on this report at a later date.

I later submitted the signed Sexual Assault Survivor's form into evidence at the Headquarter's Property Room. I had no further involvement in this investigation.

Narrative:

On 9/12/2023, I reviewed this case and called Genevieve Buchanan to follow-up on the case. I left her a voicemail requesting a return call. We were able to make phone contact later in the day and she informed me she was living in Springfield at 1104 E. McDaniel. She was separated from Gavin Hooser who lived at 616 S. Market (unknown apartment). Buchanan did not have a sexual assault kit after any of the sexual assaults, she had no injuries from them, and there were no witnesses to the incidents. She was willing to cooperate with the court if charges were presented. We scheduled her for a follow-up interview and recorded "cold" call to Hooser on 9/26/2023 at police headquarters.

G.82

On 9/26/2023, I received a voicemail from Buchanan stating that she could not make it to her interview due to car trouble.

On 9/28/2023, I called Buchanan and left her a voicemail requesting a return call about rescheduling her interview. She did not return my call.

On 9/29/2023, I called Buchanan again and left her another voicemail, this time advising her that she could contact me if she wished to reschedule her interview. This case is suspended pending Buchanan's participation.

Narrative:

On 10/8/22 at approximately 0103 hours I was dispatched to 1104 E McDaniel St. regarding a check vehicle.

Upon my arrival I met with Koli Croy, the resident of 1104 McDaniel. Croy stated she did not know the owner of a black in color Ford Fusion (MO Plate XC6Y3C) that was blocking her driveway completely.

Using department resources I found the owner of the vehicle to be Giuseppe Dimaggio, from St. Louis. I contacted the Dimaggio's home phone number and was told their son, Thomas Dimaggio is the driver of the vehicle. I retrieved Thomas' telephone number from them and tried contacting Thomas. Thomas did not answer numerous calls.

Due to not being able to reach a driver of the vehicle I had it towed by Henry's. I also wrote the citation. The citation was given to John (88) the tow truck driver, to be put with the vehicle's paperwork. The citation was for breaking Springfield Municipal Ordinance 106-300 Blocking a Driveway or within five feet. The court date is set for Jan. 23rd 2023, at 0900 hours. I was wearing my BWC during this incident and this report is a summary of those events.

Narrative:

On Monday March 18, 2019, I was dispatched to 1104 E. McDaniel St for a past burglary. Upon arrival, I contacted the victim (Loren Casteel), who advised that at approximately 0700 hours this morning she heard a noise on the back porch.

Casteel advised that after she heard the noise, she got up and walked to the back door of her residence which led to the screened in back porch. Casteel stated when she looked onto the back porch, she realized her bicycle was gone

and the screen was cut open directly above where the bicycle was located. Casteel advised that the bicycle was a yellow bicycle and did not have any other descriptions of the bicycle. Casteel advised she was not entirely positive on the price of the bicycle but it was around \$200.00. Casteel advised she would have to add the price to replace the screen at a later point once she knew how much it would cost.

After speaking with Casteel, I photographed the damage to the screen and where the bicycle was last seen. I later logged the media card into the property room at HQ.

Casteel was then provided with the case number.

Narrative:

On 05/01/2022 at 0705 hours, I was dispatched to 1104 E. McDaniel in reference to a vehicle that was parked blocking the resident's driveway. Upon arrival, I observed a black 2012 Chevrolet Cruze bearing MO license plate "GF3C0M" parked facing eastbound blocking the entire length of the driveway on McDaniel. The residents advised they were not able to leave for work because the Chevrolet was blocking them in.

I was unable to locate contact information for the owner of the Chevrolet. Based on the Chevrolet's location, I issued the vehicle a Springfield Municipal citation for blocking a driveway. Henry's Towing was contacted and towed the vehicle from the scene. I later submitted the tow sheet to the MULES desk.

This call was captured on my body worn camera and I had no further involvement with this incident.

NARRATIVE	
I honestly don't know what happened. Before today, the last time I had been in my car was at 1:30am on Monday. At some point between then and 9:40am today, my car was broken into. The car itself was not damaged, but the inside had been torn apart. They drug some of my stuff out with them over to my roommates car, but they were unable to get into it, and ended up leaving my work apron and jacket by the other car.	
I am willing to prosecute.

Entered by: #1420 PIKE, J. **Entered time:** 03/17/2017 00:43

Narrative:

While working Telcom at Headquarters. I received a Stolen License Plate Validation Letter from David M. Kelpe. Kelpe checked that the License Plate had been recovered in January 2017 by Police Department (unknown police department) and the location of recovery is unknown.

I used January 5, 2017 at 0800 hours for Record purposes to clear the License Plate from MULES.

Task MULES.

Narrative:

Miranda Kelpe called Telcom to report the license plates stolen from the vehicle she drives. The vehicle is registered to her father, David Kelpe, in Washington MO. Miranda last knew her plates were on her vehicle about 1800 hours Wednesday, 12/14/16, when she had to get the plate number to fill out an application. She realized that her plates were both missing today about 1500 hours. Two different license plates had been left on her vehicle in place of her plates.

Miranda described her vehicle as a silver, 2002, Toyota Celica, 2 door with license plates PL7L9X. She reported no damage to the vehicle. Using department resources I located the VIN for the Celica, JTDDY38T320056639; plates and VIN check to David with no wants or stolen.

License plates MP3H9F and MN5T7Z had been attached to the Celica in place of the registered plates. Department resources showed the MP3H9F plate registered to Rebecca Weldon in Maplewood, MO, no wants or stolen.

The MN5T7Z plate showed the owner as Patrick Hooper in St Louis MO and it had been reported as 1 of 2 plates stolen yesterday by John Hooper in report 16-53149.

Miranda was not at a location where an officer could pick up the two plates from her at the time of this call. She advised that she would bring them to the lobby at HQ tonight.

Miranda had no suspect information. Miranda is willing to prosecute.

I tasked MULES for entry of the stolen plates. I provided this report number to Miranda.

Supplemental:

Author: #1837 STOUT, J. **Report time:** 12/16/2016 18:15
Entered by: #1837 STOUT, J. **Entered time:** 12/16/2016 18:15

Narrative:

Miranda Kelpe contacted me at the front desk of Headquarters to submit the two LIC plates, numbering as MN5T7Z and MP3H9F, that had been left on her vehicle as evidence. Both plates were run through MULES and MN5T7Z came back as stolen, reference report 16-53149. MULES checked MP3H9F with no wants or warrants.

Kelpe advised that she had touched the LIC plates. The stolen plate was submitted to the property room.

MULES was tasked for removal of MN5T7Z as stolen under 16-53149.

Entered by: #1832 ANDERSON, T. **Entered time:** 01/25/2017 19:14
Narrative:

Lady Hadley came into SPD HQ to report that her car had been broken into sometime between 01/23/2017 1700 and 01/24/2017 1600.

She stated that she had returned home approximately 01/23/2017 at 1700 and parked her car in her driveway. When she went back out to her car the next day at around 1600, she found the trunk open and the car had been rummaged through. Upon investigation she discovered that her title to the vehicle had been stolen, along with her dog tags (has her social security number on them), and a notebook. She further stated that her wedding ring was also stolen from the vehicle.

I tasked MULES with entry for the stolen title.

I provided Hadley with this report number for future reference.

Narrative:

While working Telcom, I received a call from Samantha Flieg. Flieg called to report the theft of both her license plates from her 2000 Chevrolet Cavalier.

Flieg advised the vehicle was parked at her residence overnight. Flieg stated she noticed today, both of the license plates were taken off of the vehicle. Flieg believes the plates to have been stolen sometime between 2300-0800 hours. At the time of this report, there is no suspect information. Flieg advised there are no surveillance cameras on the property.

Narrative:

While working Telcom, I received an on-line report from Gavin Bruff who stated he had his motorcycle stolen along with a helmet. The incident happened on 09/20/2018 around 22:00 hours. The motorcycle was parked next to his car in the yard at the time. Bruff said he left the motorcycle to go inside to get a water and headphones and when he

returned, the helmet and bike were gone.

I emailed Bruff back asking for more information. I then called him leaving a message for him to call or email us back with the information needed. So far what is needed is the year of the motorcycle, VIN, his drivers license number, where is the key, did he leave the bike running?

I have not heard back from him as of yet.
